Dear Sir

**AMF BOWLING, CURROCK ROAD, CARLISLE
APPLICATION FOR GRANT OF PUBLIC ENTERTAINMENT LICENCE**

We write further to our letter of 6 February concerning the above application.

As you are aware the Electrical Installation Inspection Certificate for these premises is outstanding and we have now been advised by our clients that in carrying out this inspection the electrical contractor has identified a number of defects.

As our clients propose to carry out alterations to the layout of the premises, subject to approval being given by the Licensing Justices' at their March sessions, then our clients propose for the electrical repairs to be effected at the same time as the alterations are carried out which it is anticipated will commence late March/April. As soon as the Electrical Installation Certificate has been provided then these will be forwarded to you without further delay.

As a consequence we would be most grateful if you would kindly consider proceeding with this application with a view to it being heard by your Licensing Committee at their meeting on 6 March and, subject to them approving the application we would ask that it be granted with a condition that it is not effective until the electrical installation, emergency lighting and fire alarm inspections have been provided and approved by your Authority. We also assume that you would wish for satisfactory inspections to be undertaken by your Authority and the Fire Authority.

We would be most grateful if this application could proceed as indicated above and we would be pleased to hear from you at the earliest opportunity.

Yours faithfully

Bond Pearce incorporating Cartwrights
