Note: in compliance with section 100d of the Local Government (Access to Information) Act 1985 the report has been prepared in part from the following papers: Corporate Strategy Review: 2002/03 & Beyond

## **Background Information**

1. The County Council is consulting on the Corporate Strategy. The draft plan sets out the strategic direction for Cumbria County Council 2002/03 and beyond. It Highlights key priorities that the County Council will be working towards in partnership with local communities, key public and private sector bodies.
2. The plan sets out the geographic context of the County, explains the Councils commitments to high quality services, fair and equitable access to services efficiency and effectiveness, looking at ways of working e.g. through partnership arrangements.
  - The key corporate policies include:
  - Improve Council Services – Put the public first
  - Regenerate and diversify the economic base
  - Renew our most deprived communities
  - Increase educational standards and skills levels
  - Support elderly and vulnerable people
  - Protect and sustain the environment
  - Improve the safety and quality of people's lives
3. A statement of purpose and a series of priorities (including a top priority) underpin each of these policies. The priorities themselves are in many ways what might be expected from such a document and it is likely that the city Council could endorse and support them (there may be areas where individual services may have detailed comments). However it is not clear from the document from where these priorities have emerged i.e. as a response to consultation etc. Beyond identifying a top priority for each key policy there does not appear to be a clear prioritisation process. It is also not clear what timescales are involved and beyond stating that a wide range of resources at their disposal will be utilised there appears no clear link between the plan and the resources required to ensure implementation.
4. It may be appropriate that the County Council be asked to make a presentation on their Corporate Plan in order to explain the plan and that members have an opportunity to explore some of the issues raised above.

## **Consultation**

5. Overview and Scrutiny have been considering the issue and the minutes of those meetings are attached.

**Recommendations**

The Executive invites the County Council to give a presentation to the City Council on the County Council's Corporate Plan.

**Reasons for Recommendations**

To provide an opportunity for the City Council members to get a better understanding of the County Councils Corporate Plan.
