4 BANK BALANCE

At 28 September 2012 £280,463.69 in hand.

This simply records the Council's bank balance at the end of the last day covered by the report.

5 <u>PERFORMANCE ON TREASURY MANAGEMENT TRANSACTIONS</u> TO 30 SEPTEMBER 2012

July – 30 September 2012

	Estimate	Actual	Variance
	£000	£000	£000
Interest Receivable	(216)	(202)	14
Interest Payable	190	190	0
Less Rechargeable	(7)	(7)	0
	183	183	0
Principal Repaid	275	304	29
Debt Management	14	14	0
NET BALANCE	256	299	43

The estimate column is the profiled budget to 30 September 2012.

Most budget heads are performing very much in line with the original estimate. There will, however, be an over spend on the principal repaid figure (the minimum revenue provision - MRP) due to the capital programme in 2011/12 utilising more capital receipts than expected. This was due to expected receipts from the asset review not being generated and disposals slipping into 2012/13. This meant that the Capital Financing Requirement increased by more than expected and therefore the MRP required has increased.

APPENDIX B1

THE PRUDENTIAL CODE AND PRUDENTIAL BORROWING

1. Introduction

- 1.1 The Local Government Act 2003 brought about a new borrowing system for local authorities known as the Prudential Code (the Code). This gives to Councils much greater freedom and flexibility to borrow without government consent so long as they can afford to repay the amount borrowed.
- 1.2 The aim of the Code is to support local authorities when making capital investment decisions. These decisions should also be in line with the objectives and priorities as set out in the Council's Corporate Plan.
- 1.3 The key objectives of the Code are to ensure, within a clear framework, that the capital investment plans of the Council are affordable, prudent and sustainable, or if appropriate, to demonstrate that they may not be. A further key objective is to ensure that treasury management decisions are taken in accordance with good professional practice and in a manner that supports prudence, affordability and sustainability. These objectives are consistent with and support local strategic planning, local asset management planning and proper option appraisal. They also encourage sound treasury management decisions.

2. <u>Prudential Indicators</u>

- 2.1 To demonstrate that the Council has fulfilled these objectives, the Code sets out indicators that must be used. It is for the council to set any indicative limits or ratios. It is also important to note that these indicators are not designed to be comparative performance figures indicators but to support and record the Council's decision making process.
- 2.2 Appendix B2 sets out the latest performance indicators for the current year.

3. Supported and Unsupported (or Prudential) Borrowing

3.1 Local authorities have always funded a substantial element of their capital programme via borrowing. This continues to be the case but until the introduction of the Code any local authority borrowing was essentially based upon a government 'permission to borrow'. Differing types of government control operated over the years but since 1990 these had been termed credit approvals. The level of an authority's previous years' credit approvals is also included in the revenue support grant (RSG) allocation so that ultimately any borrowing is 'supported' via RSG.

- 3.2 This element of supported borrowing is still part of the RSG system although the City Council has previously resolved that its capital borrowing would be limited to its level of supported borrowing. In 2012/13 this is estimated to be Nil.
- 3.3 However, there may be circumstances in which the City Council will wish to undertake some prudential borrowing and the issues surrounding unsupported and supported borrowing are discussed below.
- 3.4 Authorities are permitted to borrow in excess of their supported borrowing allocation. This is referred to as prudential or unsupported borrowing. This can be undertaken so long as the Council can demonstrate that the revenue consequences of such borrowing (i.e. the cost of the debt) are sustainable, affordable and prudent in the medium to long term.

PRUDENTIAL INDICATORS

Central to the operation of the Prudential code is the compilation and monitoring of prudential indicators covering affordability, prudence, capital expenditure, and treasury management. Set out below are the indicators for 2012/13 to date as detailed in the Treasury Management Strategy Statement for 2012/13.

(a) Affordability

	2012/13 Original £	2012/13 Revised £
(i) Capital Expenditure	10,940,000	8,105,200
(ii) Financing Costs Total Financing Costs	1,163,000	1,207,565
(iii) Net Revenue Stream Funding from Govt Grants/Local Taxpayers	13,535,000	13,535,000
(iv) Ratio of Financing Costs to Net Revenue Stream The figures monitor financing costs as a proportion of the total revenue stream from government grants and local taxpayers. The increase in the ratio of financing costs is mainly attributable to the forecast reduction in investment income.	8.59%	8.92%
(v) Incremental Impact on Council Tax This indicator allows the effect of the totality of the Council's capital investment decisions to be considered at budget setting time.	N/A	9.00
(vi) Authorised Borrowing Limit Maximum Level of Borrowing and Other Long term Liabilities	37,600,000 15,013,300	37,600,000
The authorised borrowing limit is determined by Council prior to the start of the financial year. The limit must not be altered without agreement by Council and should not be exceeded under any foreseeable circumstances.		

	2012/13 Original £	
(vii) Operational Borrowing Limit Maximum Level of Borrowing and Other Long term Liabilities The operational borrowing limit is also determined by Council prior to the start of the financial year. Unlike the authorised limit, it may be breached temporarily due to cashflow variations but it should not be exceeded on a regular basis.	32,600,000 15,013,300	32,600,000
(viii) Capital Financing Requirement (CFR) As at 31 March The CFR is a measure of the underlying borrowing requirement of the authority for capital purposes.	(2,992,000)	n/a

(b) Prudence and Sustainability

	2012/13 Revised £
(i) New Borrowing to Date No Long Term Borrowing has been taken in 2012/13 to date	0
(ii) Percentage of Fixed Rate Long Term Borrowing at 30 September 2012	100%
(iii) Percentage of Variable Rate Long Term Borrowing at 30 September 2012 Prudent limits for both fixed and variable rate exposure have been set at 100%. This is due to the limited flexibility available to the authority in the context of its overall outstanding borrowing requirement.	0%
(iv) Minimum Level of Investments Classified as Specified Level of Specified Investments as at 30 September 2012	50.00% 96.00%
As part of the Investment Strategy for 2012/13 the Council set a minimum level of 50% for its specified as opposed to non specified investments. The two categories of investment were defined as part of the Strategy but for the City Council non specified investments will presently refer mainly to either investments of over one year in duration or investments placed with building societies that do not possess an appropriate credit rating. These tend to be the smaller building societies.
