CALCULATION OF COUNCIL TAX BASE 2002/03

1. BACKGROUND INFORMATION AND OPTIONS

1.1 The Council is required, under the Local Government Finance Act 1992 to calculate the Council Tax Base for the 2002/2003 financial year as follows:

- i) Under Section 67 (2) (B), the Council is required to calculate the Council Tax Base for each part of its area, i.e. parishes.
- ii) Section 33 (1) requires calculation of the Tax Base for the whole area, this figure to be applied to the Council's overall budget requirement to arrive at the Council Tax payable for Band D properties.
- iii) Section 34 (3) requires calculation of the Tax Base for each part of the area (parishes) and will be applied to the parish precepts to arrive at any additional charge in each parish which levies a precept.

2. HOW THE COUNCIL TAX BASE IS CALCULATED

2.1 The manner in which the Council Tax base is calculated is set out in the Local Authorities (Calculation of Council Tax Base) Regulations 1992, as amended. The Tax Base is required to be calculated taking account of the following:

- i) The number of dwellings listed in the relevant bands from the valuation list.
- ii) Properties which are not now shown in the list but will be entered into the list for the whole or part of the year, i.e. new properties.
- iii) Properties which will not be listed in the banding list for the whole or part of the year, e.g. properties that are demolished. Members are asked to note the Tax Base calculation has taken account the significant number of council houses likely to be demolished in the next 16 months that are currently entered on the Valuation list.
- iv) The number of properties which will be exempt, e.g. wholly occupied by students.
- v) Any reduction in banding in respect of hereditaments converted for the use of disabled occupants of the property.

- vi) All discounts at the relevant percentages for single person households, empty properties, second homes, etc.

2.2 Consultation to Date.

2.3 Consultation proposed.

3. COUNCIL TAX YIELD

3.1 After making the calculation, taking account of the factors noted in 2. above, the authority is required to estimate its Council Tax yield for the 2002/2003 financial year. The rate must be uniform throughout each part of the authority. Factors that affect the Council Tax yield (collection rate) are as follows:

- i) Provision for bad debts, i.e. "gone away" Council Taxpayers with no forwarding address.
- ii) Successful banding appeals.
- iii) Any increase in discounts at the relevant percentage for single person households, empty properties, etc.

3.2 The Council has been very successful in recovering outstanding Council Tax in the period since its introduction in 1993 achieving over a 98% collection rate within 3 years of demand. Also the taxbase is now very stable with most householder discount entitlements fully understood and claimed by Council Tax payers. It is therefore suggested that the Council Tax yield (collection rate) should be maintained at 98% in the financial year 2002/2003.

4. COUNCIL TAX BASE DATA

4.1 The relevant calculations as required under Regulations are attached to this report, as follows:

- i) The recommendation shows the summary of the Council Tax Bases for each part of the area totalling the Base for the whole area, i.e. 31,795.10. This compares to a figure of 31,643.10 for 2001/02.
- ii) Appendix '1' shows the detailed calculation of the Tax Base for the whole area.
- iii) Appendix '2' shows the detailed calculation of the Tax Base for each part of the area, i.e. Carlisle's urban area and the parishes.

5. ESTIMATION OF COLLECTION FUND SURPLUS/DEFICIT

5.1 The Council will be required to estimate, on 15 January 2002, whether it has a surplus or deficit on its Collection Fund for 2001/2001. Subsequently (within 7 working days) the Council must notify Cumbria County Council of any amount so estimated and of the amount (if any) which the Council has calculated as the County Council's share.

5.2 Due to the time constraint in that the County Council must be advised within 7 days of the surplus/deficit being estimated, and the fact that the actual method of calculation is prescribed under fund regulations, Members at the meeting of 21st December 1994 delegated the estimation and notification of any surplus or deficit on the 2001/2002 Collection Fund to the City Treasurer.
