The contents of this report relate only to the matters which have come to our attention, which we believe need to be reported to you as part of our audit planning process. It is not a comprehensive record of all the relevant matters, which may be subject to change, and in particular we cannot be held responsible to you for reporting all of the risks which may affect the Council or all weaknesses in your internal controls. This report has been prepared solely for your benefit and should not be quoted in whole or in part without our prior written consent. We do not accept any responsibility for any loss occasioned to any third party acting, or refraining from acting on the basis of the content of this report, as this report was not prepared for, nor intended for, any other purpose.

Grant Thornton UK LLP is a limited liability partnership registered in England and Wales: No.OC307742. Registered office: 30 Finsbury Square, London, EC2A 1AG. A list of members is available from our registered office. Grant Thornton UK LLP is authorised and regulated by the Financial Conduct Authority. Grant Thornton UK LLP is a member firm of Grant Thornton International Ltd (GTIL). GTIL and the member firms are not a worldwide partnership. Services are delivered by the member firms. GTIL and its member firms are not agents of, and do not obligate, one another and are not liable for one another's acts or omissions.

Key matters

Factors

Council developments

Local economies have struggled under lockdown and this is impacting the financial stability of local authorities. While there will be some opportunities arising, such as greater use of online service delivery channels, carbon reduction and property portfolio optimisation, these will need to be fully understood before they can be realised. With conflicting public service priorities, there is uncertainty over whether there will be growth to funding levels going forward.

The Council will need to ensure that it is prepared for all outcomes, including in terms of any impact on contracts, on service delivery and on its support for local people and businesses.

Impact of Covid 19 pandemic

The Covid-19 pandemic has impacted upon all our lives. While there has been some relaxation of 'business as usual' arrangements, public sector bodies are still required to abide by the stewardship requirements of Managing public money and have a statutory duty to carry out their functions effectively, efficiently and economically.

The outbreak of the Covid-19 coronavirus pandemic has had a significant impact on the normal operations of the Council. The Council has had to work differently at all levels to be able to deliver all of its required services effectively. Staff have been redeployed to front-line roles and new/revised services have been required to be provided by the Council.

The Government has provided a range of financial support packages throughout the Covid-19 pandemic. These include additional funding to support the cost of services or offset other income losses and also grant packages to be paid out to support local businesses.

Our assessment is that the Council has developed a very strong understanding of its financial and wider governance risks during the pandemic and despite future financial uncertainty about medium term government funding, is well placed to address post Covid-19 challenges.

Our response

- As a firm, we are absolutely committed to audit quality and financial reporting in the local government sector. Our proposed work and fee, as set further in our Audit Plan, has been agreed with the Corporate Director of Finance and Resources.
- We will consider your arrangements for managing and reporting your financial resources as part of our work in completing our Value for Money work.
- As part of our 2019-20 Audit Findings Report, we identified four recommendations for management. An update on the implementation of these can be found on page 13.
- We will continue to provide you with sector updates via our Audit Committee updates.
- We have identified an increased incentive and opportunity for organisations in the public sector to manipulate their financial statements due to increasing financial pressures. We have identified a significant risk in regards to management override of control – refer to page 5.
- The Council's valuer reported a material uncertainty in regards to the valuation of properties in 2019/20 due to the Covid 19 pandemic and we expect significant uncertainty will continue in 2020/21. We identified a significant risk in regards to the valuation of properties – refer to page 7.
- The 2019/20 financial statements for the Cumbria Pension Fund also included a material uncertainty disclosure in relation to the valuation of directly held properties, and we expect significant uncertainty will continue in 2020/21. We have identified a significant risk in regards to the valuation of the pension scheme net liability – refer to page 8.

Introduction and headlines

Purpose

This document provides an overview of the planned scope and timing of the statutory audit of Carlisle City Council ('the Council') for those charged with governance.

Respective responsibilities

The National Audit Office ('the NAO') has issued a document entitled Code of Audit Practice ('the Code'). This summarises where the responsibilities of auditors begin and end and what is expected from the audited body. Our respective responsibilities are also set out in the agreed in the Terms of Appointment and Statement of Responsibilities issued by Public Sector Audit Appointments (PSAA), the body responsible for appointing us as auditor of Carlisle City Council. We draw your attention to both of these documents.

Scope of our audit

The scope of our audit is set in accordance with the Code and International Standards on Auditing (ISAs) (UK). We are responsible for forming and expressing an opinion on the:

- Council's financial statements that have been prepared by management with the oversight of those charged with governance the Audit committee; and
- Value for Money arrangements in place at the Council for securing economy, efficiency and effectiveness in your use of resources.

The audit of the financial statements does not relieve management or the Audit Committee of your responsibilities. It is the responsibility of the Council to ensure that proper arrangements are in place for the conduct of its business, and that public money is safeguarded and properly accounted for. We have considered how the Council is fulfilling these responsibilities.

Our audit approach is based on a thorough understanding of the Council's business and is risk based.

Significant risks

Those risks requiring special audit consideration and procedures to address the likelihood of a material financial statement error have been identified as:

- Management override of controls
- Valuation of property, plant and equipment
- Valuation of pension fund net liability

We will communicate significant findings on these areas as well as any other significant matters arising from the audit to you in our Audit Findings (ISA 260) Report.

Materiality

We have determined planning materiality to be £1.179m (PY £1.155m) for the Council, which equates to 1.9% of your prior year gross expenditure for the year. We are obliged to report uncorrected omissions or misstatements other than those which are 'clearly trivial' to those charged with governance. Clearly trivial has been set at £0.059m (PY £0.058m).

Value for Money arrangements

Our initial risk assessment regarding your arrangements to secure value for money has not identified any risks of significant weakness. We will continue to assess the Council's arrangements and will provide a commentary against all key lines of enquiry in the Auditor's Annual Report. Should we identify any areas of significant weakness as part of our further work we will bring them to your attention.

Audit logistics

Our interim visit will take place in July and our final visit will take place in August – September and may go into October 2021. Our key deliverables are this Audit Plan, our Audit Findings Report and Auditor's Annual Report. Our audit approach is detailed in Appendix A.

Our fee for the audit will be £66,733 (PY: £80,122) for the Council, subject to the Council delivering a good set of financial statements and working papers.

We have complied with the Financial Reporting Council's Ethical Standard (revised 2019) and we as a firm, and each covered person, confirm that we are independent and are able to express an objective opinion on the financial statements.

Significant risks identified

Significant risks are defined by ISAs (UK) as risks that, in the judgement of the auditor, require special audit consideration. In identifying risks, audit teams consider the nature of the risk, the potential magnitude of misstatement, and its likelihood. Significant risks are those risks that have a higher risk of material misstatement.

Risk	Reason for risk identification	Key aspects of our proposed response to the risk
Management over-ride of controls	<p>Under ISA (UK) 240 there is a non-rebuttable presumed risk that the risk of management over-ride of controls is present in all entities. . The Authority faces external scrutiny of its spending and this could potentially place management under undue pressure in terms of how they report performance.</p> <p>We therefore identified management override of control, in particular journals, management estimates and transactions outside the course of business as a significant risk, this was one of the most significant assessed risks of material misstatement.</p>	<p>We will:</p> <ul style="list-style-type: none"> • evaluate the design effectiveness of management controls over journals • analyse the journals listing and determine the criteria for selecting high risk unusual journals • test unusual journals recorded during the year and after the draft accounts stage for appropriateness and corroboration • gain an understanding of the accounting estimates and critical judgements applied made by management and consider their reasonableness with regard to corroborative evidence • evaluate the rationale for any changes in accounting policies, estimates or significant unusual transactions.

Significant risks identified

Risk	Reason for risk identification	Key aspects of our proposed response to the risk
ISA240 revenue and expenditure recognition risk	<p data-bbox="324 539 416 560"><u>Revenue</u></p> <p data-bbox="324 592 1323 703">ISA (UK) 240 includes a rebuttable presumed risk that revenue recognition may be misstated due to the improper recognition of revenue. This presumption can be rebutted if the auditor concludes that there is no risk of material misstatement due to fraud relating to revenue recognition.</p> <p data-bbox="324 735 1323 820">Having considered the risk factors set out in ISA 240 and the nature of the revenue streams at the Council, we have determined that the risk of fraud arising from revenue recognition can be rebutted because:</p> <ul data-bbox="324 852 1323 963" style="list-style-type: none"> • There is little incentive to manipulate revenue recognition and opportunities to manipulate revenue recognition are very limited • The culture and ethical frameworks of local authorities, including Carlisle City Council, mean that all forms of fraud are seen as unacceptable <p data-bbox="324 995 452 1016"><u>Expenditure</u></p> <p data-bbox="324 1048 1323 1166">In the public sector, whilst it is not a presumed significant risk, in line with the requirements of Practice Note (PN) 10: Audit of financial statements of public sector bodies in the United Kingdom - we also consider the risk of whether expenditure may be misstated due to the improper recognition of expenditure.</p> <p data-bbox="324 1198 1323 1251">This risk is rebuttable if the auditor concludes that there is no risk of material misstatement due to fraud relating to expenditure recognition.</p> <p data-bbox="324 1283 1323 1369">Based on our assessment we consider that we are able to rebut the significant risk in relation to expenditure, but will nevertheless, and in line with PN10, recognise the heightened inherent risk of 'other service expenditure' in our audit scoping and testing assessment.</p>	As we do not consider this to be a significant risk for the Council we will not be undertaking any specific work in this area other than our normal audit procedures.

Significant risks identified

Risk	Reason for risk identification	Key aspects of our proposed response to the risk
Valuation of Property, Plant and Equipment and investment property	<p>Revaluation of property, plant and equipment should be performed with sufficient regularity to ensure that carrying amounts are not materially different from those that would be determined at the end of the reporting period. Investment Property carried at fair value should be revalued at each year end.</p> <p>Additionally, valuations are significant estimates made by management in the accounts.</p> <p>Our 2019/20 opinion included an emphasis of matter paragraph drawing attention to disclosures included in the financial statements of a material uncertainty attached to property valuations as at 31 March 2020 due to the ongoing nature of the Covid-19 pandemic. This paragraph did not represent a modification of our audit opinion.</p> <p>We have identified the valuation of land and buildings and investment property as a significant risk.</p>	<p>We will:</p> <ul style="list-style-type: none"> • Evaluate management's processes and assumptions for the calculation of the estimate, the instructions issued to the valuation experts and the scope of their work • evaluate the competence, capabilities and objectivity of the valuation expert • write to the valuer to confirm the basis on which the valuations were carried out • challenge the information and assumptions used by the valuer to assess completeness and consistency with our understanding • test a sample of valuations at 31 March 2021 to understand the information and assumptions used in arriving at any revised valuations. • test revaluations made during the year to see if they had been input correctly into the Council's asset register • review whether the expert valuer has reported any material uncertainty in relation to property valuations as at 31 March 2021 and, if so, assess the impact on disclosures in the financial statements and on our audit opinion.

Significant risks identified

Risk	Reason for risk identification	Key aspects of our proposed response to the risk
Valuation of the pension fund net liability	<p>The Council's pension fund net liability, as reflected in its balance sheet as the net defined benefit liability, represents a significant estimate in the financial statements.</p> <p>The pension fund net liability is considered a significant estimate due to the size of the numbers involved and the sensitivity of the estimate to changes in key assumptions.</p> <p>Our 2019/20 opinion included an emphasis of matter paragraph drawing attention to disclosures included in the financial statements which reported that, due to the impact of Covid-19 on the global financial markets, the valuation of the Pension Funds' investment properties were reported on the basis of material valuation uncertainty. This paragraph did not represent a modification of our audit opinion.</p> <p>We therefore identified valuation of the Council's pension fund net liability as a significant risk, which was one of the most significant assessed risks of material misstatement.</p>	<p>We will:</p> <ul style="list-style-type: none"> • update our understanding of the processes and controls put in place by management to ensure that the Authority's pension fund net liability is not materially misstated and evaluate the design of the associated controls • evaluate the instructions issued by management to their management expert (an actuary) for this estimate and the scope of the actuary's work • assess the competence, capabilities and objectivity of the actuary who carried out the Authority's pension fund valuation • assess the accuracy and completeness of the information provided by the Authority to the actuary to estimate the liability • test the consistency of the pension fund asset and liability and disclosures in the notes to the core financial statements with the actuarial report from the actuary • undertake procedures to confirm the reasonableness of the actuarial assumptions made by reviewing the report of the consulting actuary (as auditor's expert) and performing any additional procedures suggested within the report • review whether the pension fund has reported any material uncertainty in relation to investment property valuations as at 31 March 2021 and, if so, assess the impact on disclosures in the financial statements and on our audit opinion • obtain assurances from the auditor of the Cumbria Pension Fund as to the controls surrounding the validity and accuracy of membership data; contributions data and benefits data sent to the actuary by the pension fund and the fund assets valuation in the pension fund financial statements.

Accounting estimates and related disclosures

The Financial Reporting Council issued an updated ISA (UK) 540 (revised): *Auditing Accounting Estimates and Related Disclosures* which includes significant enhancements in respect of the audit risk assessment process for accounting estimates. We identified one recommendation in our 2019/20 audit in relation to the Council's estimation process for valuation of land and buildings. In particular the approach used by the valuer.

Introduction

Under ISA (UK) 540 (Revised December 2018) auditors are required to understand and assess an entity's internal controls over accounting estimates, including:

- The nature and extent of oversight and governance over management's financial reporting process relevant to accounting estimates;
- How management identifies the need for and applies specialised skills or knowledge related to accounting estimates;
- How the entity's risk management process identifies and addresses risks relating to accounting estimates;
- The entity's information system as it relates to accounting estimates;
- The entity's control activities in relation to accounting estimates; and
- How management reviews the outcomes of previous accounting estimates.

As part of this process auditors also need to obtain an understanding of the role of those charged with governance, which is particularly important where the estimates have high estimation uncertainty, or require significant judgement.

Specifically do Audit Committee members:

- Understand the characteristics of the methods and models used to make the accounting estimates and the risks related to them;
- Oversee management's process for making accounting estimates, including the use of models, and the monitoring activities undertaken by management; and
- Evaluate how management made the accounting estimates?

Accounting estimates and related disclosures

Additional information that will be required

To ensure our compliance with this revised auditing standard, we will be requesting further information from management and those charged with governance during our audit for the year ended 31 March 2021.

Based on our knowledge of the Council we have identified the following material accounting estimates for which this is likely to apply:

- Valuations of land and buildings, council dwellings and investment properties
- Depreciation
- Year end provisions and accruals
- Credit loss and impairment allowances
- Valuation of defined benefit net pension fund liabilities
- Fair value estimates
- Valuation of level 2 and level 3 investments

The Council's Information systems

In respect of the Council's information systems we are required to consider how management identifies the methods, assumptions and source data used for each material accounting estimate and the need for any changes to these. This includes how management selects, or designs, the methods, assumptions and data to be used and applies the methods used in the valuations.

When the models used include increased complexity or subjectivity, as is the case for many valuation models, auditors need to understand and assess the controls in place over the models and the data included therein. Where adequate controls are not in place we may need to report this as a significant control deficiency and this could affect the amount of detailed substantive testing required during the audit.

If management has changed the method for making an accounting estimate we will need to fully understand management's rationale for this change. Any unexpected changes are likely to raise the audit risk profile of this accounting estimate and may result in the need for additional audit procedures.

We are aware that the Council uses management experts in deriving some of its more complex estimates, e.g. asset valuations and pensions liabilities. However, it is important to note that the use of management experts does not diminish the responsibilities of management and those charged with governance to ensure that:

- All accounting estimates and related disclosures included in the financial statements have been prepared in accordance with the requirements of the financial reporting framework, and are materially accurate;
- There are adequate controls in place at the Council (and where applicable its service provider or management expert) over the models, assumptions and source data used in the preparation of accounting estimates.

Estimation uncertainty

Under ISA (UK) 540 we are required to consider the following:

- How management understands the degree of estimation uncertainty related to each accounting estimate; and
- How management address this estimation uncertainty when selecting their point estimate.

For example, how management identified and considered alternative, methods, assumptions or source data that would be equally valid under the financial reporting framework, and why these alternatives were rejected in favour of the point estimate used.

The revised standard includes increased emphasis on the importance of the financial statement disclosures. Under ISA (UK) 540 (Revised December 2018), auditors are required to assess whether both the accounting estimates themselves and the related disclosures are reasonable.

Where there is a material uncertainty, that is where there is a significant risk of a material change to the estimated carrying value of an asset or liability within the next year, there needs to be additional disclosures. Note that not all material estimates will have a material uncertainty and it is also possible that an estimate that is not material could have a risk of material uncertainty.

Where there is material estimation uncertainty, we would expect the financial statement disclosures to detail:

- **What the assumptions and uncertainties are;**
- **How sensitive the assets and liabilities are to those assumptions, and why;**
- **The expected resolution of the uncertainty and the range of reasonably possible outcomes for the next financial year; and**
- **An explanation of any changes made to past assumptions if the uncertainty is unresolved.**

Planning enquiries

As part of our planning risk assessment procedures we have made enquiries of management requesting written responses from the Council across a range of areas and issues including on the approach taken to derive key accounting estimates. We have now received the Council's responses and have considered them as part of our ongoing planning. The responses will be shared and presented to Audit Committee at the July 2021 meeting.

Further information

Further details on the requirements of ISA (UK) 540 (Revised December 2018) can be found in the auditing standard on the Financial Reporting Council's website:

[https://www.frc.org.uk/getattachment/0fa69c03-49ec-49ae-a8c9-cc7a2b65382a/ISA-\(UK\)-540_Revised-December-2018_final.pdf](https://www.frc.org.uk/getattachment/0fa69c03-49ec-49ae-a8c9-cc7a2b65382a/ISA-(UK)-540_Revised-December-2018_final.pdf)

Other matters

Other work

In addition to our responsibilities under the Code of Practice, we have a number of other audit responsibilities, as follows:

- We read your Narrative Report and Annual Governance Statement to check that they are consistent with the financial statements on which we give an opinion and our knowledge of the Council.
- We carry out work to satisfy ourselves that disclosures made in your Annual Governance Statement are in line with requirements set by CIPFA.
- We carry out work on your consolidation schedules for the Whole of Government Accounts process in accordance with NAO group audit instructions.
- We consider our other duties under legislation and the Code, as and when required, including:
 - giving electors the opportunity to raise questions about your 2020/21 financial statements, consider and decide upon any objections received in relation to the 2020/21 financial statements;
 - issuing a report in the public interest or written recommendations to the Council under section 24 of the Local Audit and Accountability Act 2014 (the Act).
 - application to the court for a declaration that an item of account is contrary to law under section 28 or a judicial review under section 31 of the Act
 - issuing an advisory notice under section 29 of the Act
- We certify completion of our audit.

Other material balances and transactions

Under International Standards on Auditing, "irrespective of the assessed risks of material misstatement, the auditor shall design and perform substantive procedures for each material class of transactions, account balance and disclosure". All other material balances and transaction streams will therefore be audited. However, the procedures will not be as extensive as the procedures adopted for the risks identified in this report.

Going concern

As auditors, we are required to obtain sufficient appropriate audit evidence regarding, and conclude on:

- whether a material uncertainty related to going concern exists; and
- the appropriateness of management's use of the going concern basis of accounting in the preparation of the financial statements.

The Public Audit Forum has been designated by the Financial Reporting Council as a "SORP-making body" for the purposes of maintaining and updating Practice Note 10: Audit of financial statements and regularity of public sector bodies in the United Kingdom (PN 10). It is intended that auditors of public sector bodies read PN 10 in conjunction with (ISAs) (UK).

PN 10 has recently been updated to take account of revisions to ISAs (UK), including ISA (UK) 570 on going concern. The revisions to PN 10 in respect of going concern are important and mark a significant departure from how this concept has been audited in the public sector in the past. In particular, PN 10 allows auditors to apply a 'continued provision of service approach' to auditing going concern, where appropriate. Applying such an approach should enable us to increase our focus on wider financial resilience (as part of our VfM work) and ensure that our work on going concern is proportionate for public sector bodies. We will review the Council's arrangements for securing financial sustainability as part of our Value for Money work and provide a commentary on this in our Auditor's Annual Report (see page 15).

Progress against prior year audit recommendations

We identified the following issues in our 2019/20 audit of the Council's financial statements, which resulted in four recommendations being reported in our 2019/20 Audit Findings Report. We are pleased to report that management have implemented all of our recommendations. We will follow this up in our 2020/21 audit and report in the Audit Findings report.

Assessment	Issue and risk previously communicated	Update on actions taken to address the issue
	Revaluations We identified significant concerns with the approach used to calculate DRC and other revaluations by the valuer.	We have undertaken a thorough quality review of the 2020/21 asset valuation process with finance logging queries on the bases of valuation and any significant change in the indices used or movement in valuations from previous year. The valuer is the same valuer that undertook the revised valuations in 2019/20 so we have greater confidence in the information provided. Property have also undertaken a sample check of the calculations to arrive at valuations and have satisfied themselves that on the assets checked all is in order. All queries and responses have been logged.
	Capital Projects The total costs on the Sands Centre Redevelopment continues to increase from the initial £14.2 million to £27.2m. Any capital programme overruns should be closely monitored to ensure the Council does not breach its treasury management limits.	The Council is ensuring that capital projects are robustly costed and has provided resources for management of capital projects through the 2021/22 budget process. A Project Management Office is also being established for the major projects to be delivered through the Future High Street Fund, Town Deal and St. Cuthbert's Garden Village. The Sands project is monitored on a weekly basis by the internal project manager and key Officers, as well as having regular meetings with the external project support and contractor.
	Run Rate A review of the Council's reserves from the past three years and looking at the budgets for the following two years shows the Council has continued to use reserves to fund the 2020/21 budget.	Reserves are closely monitored and minimum levels of GF Balance are risk assessed as part of the MTFP prior to the budget process. Any additional requirement from GF Balances requires council approval and would only be recommended if reserves were maintained above minimum levels. Use of reserves is then also considered as part of the budget process and the fact that the MTFP and budget provide indicative impact of spend over the following 5-years, provides the Council with security that reserves are being maintained at appropriate levels. For 2020/21 the Council was significantly underspent and has increased level of GF reserves.
	Medium Term Financial Plan The medium term financial plan includes various assumptions which includes an increase of income over inflation. As the Council is heavily exposed to reliance on investment income to deliver its financial objectives, the impact on future revenue streams needs very close monitoring and management to maintain the Council's financial health.	Income continues to be closely monitored through the budget process and where necessary changes to budgets are reflected. The MTFP for 2022/23 will include greater use of sensitivity analysis and the impact that certain income streams have on the overall budget. Where income is uncertain or subject to increased volatility this will be identified.

Materiality

The concept of materiality

Materiality is fundamental to the preparation of the financial statements and the audit process and applies not only to the monetary misstatements but also to disclosure requirements and adherence to acceptable accounting practice and applicable law. Misstatements, including omissions, are considered to be material if they, individually or in the aggregate, could reasonably be expected to influence the economic decisions of users taken on the basis of the financial statements.

Materiality for planning purposes

We have determined financial statement materiality based on a proportion of the gross expenditure of the Council for the financial year. In the prior year we used the same benchmark. Materiality at the planning stage of our audit is £1.179m (PY £1.155m) for the Council, which equates to 1.9% of your forecast gross expenditure for the year. We design our procedures to detect errors in specific accounts at a lower level of precision which we have determined to be £10,000 for senior officers remuneration.

We reconsider planning materiality if, during the course of our audit engagement, we become aware of facts and circumstances that would have caused us to make a different determination of planning materiality.

Matters we will report to the Audit Committee

Whilst our audit procedures are designed to identify misstatements which are material to our opinion on the financial statements as a whole, we nevertheless report to the Audit Committee any unadjusted misstatements of lesser amounts to the extent that these are identified by our audit work. Under ISA 260 (UK) 'Communication with those charged with governance', we are obliged to report uncorrected omissions or misstatements other than those which are 'clearly trivial' to those charged with governance. ISA 260 (UK) defines 'clearly trivial' as matters that are clearly inconsequential, whether taken individually or in aggregate and whether judged by any quantitative or qualitative criteria. In the context of the Council, we propose that an individual difference could normally be considered to be clearly trivial if it is less than £0.059m (PY £0.058m).

If management have corrected material misstatements identified during the course of the audit, we will consider whether those corrections should be communicated to the Audit Committee to assist it in fulfilling its governance responsibilities.

Value for Money arrangements

Revised approach to Value for Money work for 2020/21

On 1 April 2020, the National Audit Office introduced a new Code of Audit Practice which comes into effect from audit year 2020/21. The Code introduced a revised approach to the audit of Value for Money. (VFM)

There are three main changes arising from the NAO's new approach:

- A new set of key criteria, covering financial sustainability, governance and improvements in economy, efficiency and effectiveness
- More extensive reporting, with a requirement on the auditor to produce a commentary on arrangements across all of the key criteria, rather than the current 'reporting by exception' approach
- The replacement of the binary qualified/unqualified approach to VFM conclusions, with far more sophisticated judgements on performance, as well as key recommendations on any significant weaknesses in arrangements identified during the audit.

The Code require auditors to consider whether the body has put in place proper arrangements to secure economy, efficiency and effectiveness in its use of resources. When reporting on these arrangements, the Code requires auditors to structure their commentary on arrangements under three specified reporting criteria. These are as set out opposite.

Improving economy, efficiency and effectiveness

Arrangements for improving the way the body delivers its services. This includes arrangements for understanding costs and delivering efficiencies and improving outcomes for service users.

Financial Sustainability

Arrangements for ensuring the body can continue to deliver services. This includes planning resources to ensure adequate finances and maintain sustainable levels of spending over the medium term (3-5 years)

Governance

Arrangements for ensuring that the body makes appropriate decisions in the right way. This includes arrangements for budget setting and management, risk management, and ensuring the body makes decisions based on appropriate information

Risks of significant VFM weaknesses

As part of our planning work, we considered whether there were any risks of significant weakness in the body's arrangements for securing economy, efficiency and effectiveness in its use of resources that we needed to perform further procedures on. The risks we have identified are detailed in the first table below, along with the further procedures we will perform. We may need to make recommendations following the completion of our work. The potential different types of recommendations we could make are set out in the table below.

Risks of significant weakness

These would be risks requiring audit consideration and procedures to address the likelihood that proper arrangements are not in place at the body to deliver value for money.

At this stage of our audit work we have not identified any significant weaknesses. However, under the new VFM arrangements we will be considering the Council's arrangements in place across the three criteria areas of finance, governance and performance. To be clear, this represents a more detailed level of audit work required under the new VFM Code than previously. We will be commenting on the Council's arrangements across the three criteria in our Auditor's Annual Report – again a new requirement for this year.

We will continue to monitor the Council's financial outturn for 2020-21 and its planned position for 2021-22 and beyond.

We will keep the possibility of a significant weakness arising and/or an existing risk increasing to a significant weakness as part of our ongoing 2020-21 VFM review.

Our findings will be summarised in the Auditor's Annual Report, to be agreed with management later this year.

Potential types of recommendations

A range of different recommendations could be made following the completion of work on risks of significant weakness, as follows:

Statutory recommendation

Written recommendations to the body under Section 24 (Schedule 7) of the Local Audit and Accountability Act 2014. A recommendation under schedule 7 requires the body to discuss and respond publicly to the report.

Key recommendation

The Code of Audit Practice requires that where auditors identify significant weaknesses in arrangements to secure value for money they should make recommendations setting out the actions that should be taken by the body. We have defined these recommendations as 'key recommendations'.

Improvement recommendation

These recommendations, if implemented should improve the arrangements in place at the body, but are not made as a result of identifying significant weaknesses in the body's arrangements

Audit logistics and team

Gareth Kelly, Key Audit Partner

Key contact for senior management and Accounts and Audit Committee.

Gareth will oversee the implementation and delivery of the audit and will be the audit signatory. He will meet with senior management to help identify risks for the audit and provide advice and assistance as required.

Sophia Iqbal, Audit Manager

Sophia will work with senior members of the finance team ensuring testing is delivered and any accounting issues are addressed on a timely basis. She will also lead completion of the VFM assessment. She will attend Accounts and Audit Committee with Gareth, and will undertake reviews of the team's work and draft clear, concise and understandable reports.

Hannah Foster, Audit Incharge

Hannah, is the day to day contact for finance staff and is responsible for the day to day supervision of the audit team. She will regularly engage with the finance team during our visits to ensure there are no surprises arising from our work.

Audited body responsibilities

Where audited bodies do not deliver to the timetable agreed, we need to ensure that this does not impact on audit quality or absorb a disproportionate amount of time, thereby disadvantaging other audits. Where the elapsed time to complete an audit exceeds that agreed due to a client not meeting its obligations we will not be able to maintain a team on site. Similarly, where additional resources are needed to complete the audit due to a client not meeting their obligations we are not able to guarantee the delivery of the audit to the agreed timescales. In addition, delayed audits will incur additional audit fees.

Our requirements

To minimise the risk of a delayed audit, you need to ensure that you:

- produce draft financial statements of good quality by the agreed timetable you have agreed with us, including all notes, the Narrative Report and the Annual Governance Statement
- ensure that good quality working papers are available at the start of the audit, in accordance with the working paper requirements schedule that we have shared with you
- ensure that the agreed data reports are available to us at the start of the audit and are reconciled to the values in the accounts, in order to facilitate our selection of samples for testing
- ensure that all appropriate staff are available on site throughout (or as otherwise agreed) the planned period of the audit
- respond promptly and adequately to audit queries.

Audit fees

In 2017, PSAA awarded a contract of audit for Carlisle City Council to begin with effect from 2018/19. The fee agreed in the contract was £41,033. Since that time, there have been a number of developments, particularly in relation to the revised Code and ISA's which are relevant for the 2020/21 audit.

As referred to on page 15, the 2020/21 Code introduces a revised approach to our VFM work. This requires auditors to produce a commentary on arrangements across all of the key criteria, rather than the current 'reporting by exception' approach. Auditors now have to make far more sophisticated judgements on performance, as well as issue key recommendations if any significant weaknesses in arrangements are identified during the audit. We will be working with the NAO and other audit firms to discuss and share learning in respect of common issues arising across the sector.

The new approach will be more challenging for audited bodies, involving discussions at a wider and more strategic level. Both the reporting, and the planning and risk assessment which underpins it, will require more audit time, delivered through a richer skill mix than in previous years. Our estimate is that for your audit, this will result in an increased fee of £25,700 (63%). This is in line with increases we are proposing at all our local audits.

Additionally, across all sectors and firms, the FRC has set out its expectation of improved financial reporting from organisations and the need for auditors to demonstrate increased scepticism and challenge and to undertake additional and more robust testing, as noted in the number of revised ISA's issued by the FRC that are applicable to audits of financial statements commencing on or after 15 December 2019, as detailed in Appendix 1.

As a firm, we are absolutely committed to meeting the expectations of the FRC with regard to audit quality and public sector financial reporting. Our proposed work and fee for 2020/21, as set out below, is detailed overleaf and has been agreed with the Corporate Director of Finance and Resources.

	Actual Fee 2018/19	Actual Fee 2019/20	Proposed fee 2020/21
Carlisle City Council Audit	£45,533	£80,122	£66,733
Total audit fees (excluding VAT)	£45,533	£80,122	£66,733

Assumptions

In setting the above fees, we have assumed that the Council will:

- prepare a good quality set of accounts, supported by comprehensive and well presented working papers which are ready at the start of the audit
- provide appropriate analysis, support and evidence to support all critical judgements and significant judgements made during the course of preparing the financial statements
- provide early notice of proposed complex or unusual transactions which could have a material impact on the financial statements.

Relevant professional standards

In preparing our fee estimate, we have had regard to all relevant professional standards, including paragraphs 4.1 and 4.2 of the FRC's [Ethical Standard \(revised 2019\)](#) which stipulate that the Engagement Lead (Key Audit Partner) must set a fee sufficient to enable the resourcing of the audit with partners and staff with appropriate time and skill to deliver an audit to the required professional and Ethical standards.

Audit fees – detailed analysis

Scale fee published by PSAA	£41,033
Ongoing increases to scale fee first identified in 2019/20	
Raising the bar/regulatory factors	£4,050
Enhanced audit procedures for Property, Plant and Equipment	£4,100
Enhanced audit procedures for Pensions	£2,050
Other items including COVID and additional work on revaluations	£28,889
Audit fee 2019/20	£80,122
New issues for 2020/21	
Additional work on Value for Money (VfM) under new NAO Code	£9,000
Increased audit requirements of revised ISAs	£6,500
Proposed increase to agreed 2019/20 fee	£15,500
Less Non recurrent additional fee in 2019/20	(28,889)
Total audit fees (excluding VAT)	£66,733

Independence and non-audit services

Auditor independence

Ethical Standards and ISA (UK) 260 require us to give you timely disclosure of all significant facts and matters that may bear upon the integrity, objectivity and independence of the firm or covered persons. relating to our independence.). In this context, we disclose the following to you:

Commencing 1 November 2016, Grant Thornton UK LLP entered into a short-term tenancy lease for a small portion of the 7th floor of the Civic Centre, Carlisle. We have considered the ethical standards and any potential threats to our independence resulting from this arrangement. However, the nature of the lease arrangement between the Council and Grant Thornton UK LLP, and the sums involved, are clearly insignificant to either party.

We encourage you to contact us to discuss these or any other independence issues with us. We will also discuss with you if we make additional significant judgements surrounding independence matters.

We have complied with the Financial Reporting Council's Ethical Standard (Revised 2019) and we as a firm, and each covered person, confirm that we are independent and are able to express an objective opinion on the financial statements. Further, we have complied with the requirements of the National Audit Office's Auditor Guidance Note 01 issued in May 2020 which sets out supplementary guidance on ethical requirements for auditors of local public bodies.

We confirm that we have implemented policies and procedures to meet the requirements of the Ethical Standard. For the purposes of our audit we have made enquiries of all Grant Thornton UK LLP teams providing services to the Council.

Other services

The following other services provided by Grant Thornton were identified.

The amounts detailed are fees agreed to-date for audit related and non-audit services to be undertaken by Grant Thornton UK LLP in the current financial year. These services are consistent with the Council's policy on the allotment of non-audit work to your auditors.

Any changes and full details of all fees charged for audit related and non-audit related services by Grant Thornton UK LLP and by Grant Thornton International Limited network member Firms will be included in our Audit Findings report at the conclusion of the audit.

None of the services provided are subject to contingent fees.

Service	Fees £	Threats	Safeguards
Audit related			
None	-	-	-
Non-audit related			
CFO Insights Licence	5,000	Self-Interest (because this is a recurring fee)	The level of this recurring fee taken on its own is not considered a significant threat to independence as the fee for this work is £5,000 in comparison to the total fee for the audit of £66,733 and in particular relative to Grant Thornton UK LLP's turnover overall. Further, it is a fixed fee and there is no contingent element to it. These factors all mitigate the perceived self-interest threat to an acceptable level.
Total	5,000	-	-

Appendix 1: Revised Auditor Standards and application guidance

FRC revisions to Auditor Standards and associated application guidance

The following Auditing Standards and associated application guidance that were applicable to 19/20 audits, have been revised or updated by the FRC, with additional requirements for auditors for implementation in 2020/21 audits and beyond.

	Date of revision	Application to 2020/21 Audits
