**OVERVIEW AND SCRUTINY  
MANAGEMENT**

Report of  
Chairman:

**COUNCILLOR JEFFERSON**

The Overview and Scrutiny system continues to improve as Members become more familiar with procedure.

Since the annual report the work programme has been set in place.

The future work on the performance indicators will help us towards more team work.

Subject Review/Enquiries will take up a larger amount of our time available and I do not believe that the Committee should be overloaded in the initial stages. This might leave us unable to take on further work that could help the comprehensive performance assessment requirements.
