## 1. Background

1.1 This report contains the Quarter 1 2022/23 performance against the Service Standards and a summary of the Carlisle Plan 2021-23 actions as defined in the Plan. The Panel's Key Performance Indicators (KPIs) are also included as an appended dashboard.

1.2 Service Standards are the measures judged to be the most important to our customers and therefore the mostly likely to influence the overall satisfaction with how the Council performs. The following pages contain the Council's performance against the Service Standards for this Panel.

1.3 The measures are predominately lagging indicators (looking back at performance) and cover a range of services. Some indicators naturally lend themselves to having a specific target, or a national target, whilst with others the aim is to continually improve year-on-year compared to past performance. Regularly monitoring the Council's performance helps to drive continuous improvement and protects against any financial or organisational issues by flagging up indicators that are off target. The measures can also be used for a variety of other purposes including: to evaluate, control, budget, motivate, promote, celebrate and learn. Performance management in this form, through performance reporting, is just one aspect of the Council's wider performance framework.

1.4 The current position of the projects and programmes of the Carlisle Plan are presented in Section 3. Normally, only actions within the remit of the Panel are included in this report. However, as this is the first Panel, all actions are included this time for information. The intention is to give the Panel a brief overview of the current position without duplicating the more detailed reporting that takes place within the Scrutiny agendas and Portfolio Holder reports.

### 1.5 Summary of KPIs and Service Standards:

## Section 1: Service Standards 2022/23

Service Standards were introduced in 2012 after consultation with Service Managers, DMTs, SMT and JMT. Five further measures were introduced from Quarter 2 2017/18 and all are reviewed during Quarter 3 each year as part of the service planning process. Service Standards are the measures judged to be the most important to our customers, therefore, the most likely to influence the overall satisfaction with how the Council performs. The following pages contains the Council's performance against the Service Standards within the Panel's remit.

## **Section 2: Key Performance Indicators (KPIs)**

Service Standards are not the only set of measures used to interrogate the performance of the Council. Alongside the review of Service Standards, a set of Key Performance Indicators, derived from the links between the service plans and budget resolution were developed. The measures are predominately lagging indicators (looking back at performance) and cover a range of internal and external facing services. Some indicators naturally lend themselves to having a target or may have a national target set whilst with others, the aim is to improve year-on-year. Regularly monitoring the Council's performance helps to drive continuous improvement and protects against any financial or organisational issues by flagging up indicators that are off target. The KPIs can also be used for a variety of other purposes including: to evaluate, control, budget, motivate, promote, celebrate and learn. Performance management in this form is just one aspect of the Council's wider performance framework.

The KPIs are attached as a dashboard at the end of this report.

Throughout 2021/22, a link to the online customer satisfaction survey was available on the Council's website and promoted via social media. The following table is a summary of the results. When confidence levels for this year and last are taken into account, all satisfaction levels are broadly similar apart from overall satisfaction levels which have improved. The results of the most recent LGA survey are also included and Carlisle is in line with the national average.

Key Action	Project Activity
	<p data-bbox="507 181 1466 327">During the period, 16 enforcement notices have been issued for matters relating to poor housing conditions management and documentation requests.</p> <p data-bbox="507 400 1466 1317">During Quarter 1 there have been a higher-than-average number of referrals for disabled facility grants, with 107. Homelife have also seen increased activity due to the launch of the warmer and sustainable homes projects with 321 referrals, 84 of those referrals are related to the discretionary housing delivery, such as hospital discharge, safe and warmer homes under the Housing Assistance Policy. The sustainable home referrals making up the larger percentage of activity into Homelife. In the period there has been 95 grant approvals under the Housing Assistance Policy grant schemes and 271 case completions in the quarter. A large percentage of those closures are related to case management due to staff changes which has seen a surge in better data management. The figures will therefore include cases that should have been closed in previous periods. The actual completions in the period are significantly less, in the Housing and Pollution Team where the core Disabled Adaptation delivery takes place, there were 29 completions in the period.</p> <p data-bbox="507 1391 1466 1924">As reported in the last quarter report, there are back logs in the system, due to supply chain and contractor availability. The biggest blockage to delivery is our main adaption type which is level access shower adaptations. There are currently 105 individuals in the system awaiting a bathroom adaptation. A priority point system is being used to manage the adaptation waiting list to ensure those most in need receive their adaptation in a timely manner. There are no issues at present with stairlift adaptations, these are being turn around very quickly from application to installation averaging under a month in most cases.</p>

The LCWIP, which is a requirement in order for councils to qualify for government funding, prioritises cycling and walking routes at a local level and at shorter distances, connecting residents with the places they may wish to go. Investment in the network will ensure these routes are safe, direct and attractive for people to use for active travel as a realistic alternative to motor transport.</p> <p><b>Hammonds Pond Infrastructure Improvements</b></p> <p>Improvement works to park infrastructure at Hammond's Pond have been completed. The £230,000 project funded from S106 contributions involved resurfacing poor quality paths; constructing a new path to allow safe pedestrian access to the Western side of the park; replacing four end of life timber foot bridges with new steel examples; and replacing collapsing sections of bank edge around the pond with new materials which are more environmentally friendly. A small number of additional minor works will be completed during the summer.</p> <p><b>Conservation grassland</b></p>

Key Action	Project Activity
	<p>Carlisle City Council has carried out further changes to grass cutting regimes in green spaces to better manage grassland habitat for wildlife. Over the Spring / Summer of 2022, a total of seven green spaces will be targeted to reduce the frequency of mowing, from regular cutting, to cutting the grass once a year in September and removing the grass cuttings. Eight hectares of conservation grassland will be created for the benefit of pollinators and other wildlife. This will be in addition to the 17 hectares of hay meadows, diverse woodland, and wet grassland that has already been carried out in the Swifts. These projects will provide essential habitat for pollinating insects and will also offer feeding and nesting opportunities for a wide range of bird and mammal species. Interpretation Boards and signage will be erected over the Summer informing local residents why the grass is not being cut and explain the benefits to wildlife.</p> <p><b>Active Spaces</b></p> <ul style="list-style-type: none"> <li>• £32,000 has been invested in the replacement safety surfacing in Bitts Park Play Area, with works to resurface approximately half the site being completed in early June. The existing surface had become worn due to the heavy usage the site has received since opening in 2016</li> <li>• Work commenced in mid-June to install new outdoor fitness equipment costing £35,000 at Hammond's Pond. The new equipment, consisting of an exercise bike, wheelchair accessible arm bike and a fitness rig, will be in the area previously occupied by a football kick wall and seating</li> <li>• Dale End Field multi-use games area has been completely renovated with new fencing, a teen shelter, lighting upgrades and some resurfacing.
