

**Written response to question / issue
raised at Health and Wellbeing Scrutiny
Panel (10/06/2021)**

Meeting Date: 10/06/2021
Public / Private*: Public
Minute Reference: HWSP 41/21
Written response to: Health and Wellbeing Scrutiny Panel
Written response from: Policy and Communications Manager

Resolution / Question:

In considering HWSP 41/21 Local Environment Strategy Update

3) That the Policy and Communications Manager provide the Panel with the following:

- Information on how rural electric vehicle charging points could be introduced

Response:

Update from the Project Manager:

The SOSCI project has the installation of rural charge points as one of its specific objectives and the first installation in Carlisle took place in Dalston.

We've approached a number of parish councils with the offer of charge points and 2 have been installed in Brampton. Expressions of interest from any suitable locations in rural areas e.g village hall car parks would be welcomed.
