Proposal: Variation Of Condition 2 (Approved Documents) Of Previously Approved
Permission 10/1066 (Revised Application)

Refuse Permission

1. **Reason:** The proposal, by virtue of its scale, massing and position within the site, does not respond to the local context and form of surrounding building in relation to height, scale and massing. The provision of the bin storage area within the building is inappropriate giving potential rise to nuisance arising from bin collections, odour and inadequate size of storage area. The siting of the proposed building would differ from the approved scheme and would be inappropriate to its prominent location in the Wetheral Conservation Area. The proposal is therefore contrary to criteria 1 of Policy CP5 (Design), criterion 2, 3 and 4 of Policy H1 (Location of New Housing Development) and criterion 1 and 2 of Policy LE19 (Conservation Areas) of the Carlisle District Local Plan 2001-2016.

2. **Reason:** The proposed building would be located adjacent to neighbouring residential properties. In this instance, by virtue of the number of proposed windows serving habitable rooms on the east and west elevations of the building, the development would result in overlooking and a significant loss of privacy to the occupiers of the neighbouring properties. The proposed windows would also conflict with the Council's required minimum distances. The proposal is therefore contrary to criteria 5 of Policy CP5 (Design) of the Carlisle District Local Plan 2001-2016 and the objectives of the Supplementary Planning Document "Achieving Well Designed Housing".

Relevant Development Plan Policies

Carlisle District Local Plan 2001 - 2016

Core Development Policies - Policy CP3 - Trees And Hedges On Development Sites

Proposals for new development should provide for the protection and integration of existing trees and hedges. Where trees and hedges are present, a survey will be required showing the following:

- 1 the location of existing trees and hedges;
- 2 the species, age, height and crown spread of each tree;
- 3 an assessment of the condition of each tree;
- 4 the location and crown spread of trees on adjacent land which may be affected by the development;
- 5 existing and proposed changes in ground level.

In order to protect and integrate existing trees and hedges within new development, the City Council will resist proposals which cause unacceptable tree loss, and which do not allow for the successful integration of existing trees identified in the tree survey.

Layouts will be required to provide adequate spacing between existing trees and buildings, taking into account the existing and future size of the trees, and their impact both above and below ground.

The City Council will protect existing trees and woodlands where appropriate, by tree preservation orders, and by the use of planning conditions requiring protective fencing around trees to be retained to prevent site works within their crown spread.

Carlisle District Local Plan 2001 - 2016

Core Development Policies - Policy CP5 - Design

All new development proposals will be assessed against the following design principles. Proposals should:

- 1 Respond to the local context and the form of surrounding buildings in relation to height, scale and massing, and by making use of appropriate materials and detailing;
- 2 Take into consideration any important landscape or topographical features and respect local landscape character;
- 3 Reinforce local architectural features, where appropriate, promoting and respecting local distinctiveness;
- 4 Ensure all components of the proposal, such as buildings, car parking, access routes, open space and landscaping, are well related to one another to ensure a well integrated, successful and attractive development;
- 5 Ensure there is no adverse effect on the residential amenity of existing areas, or adjacent land uses, or result in unacceptable standards for future users and occupiers of the development;
- 6 Ensure the retention and enhancement of existing trees, shrubs, hedges and other wildlife habitats where possible. Where environmental features are lost as a result of the proposal, appropriate mitigation measures should be put in place and on-site replacement of those features will be sought;
- 7 Include landscaping schemes (both hard and soft) to assist the integration of new development into existing areas and ensure that development on the edge of settlements is fully integrated into its surroundings;

- 8 Ensure that the necessary services and infrastructure can be incorporated without causing unacceptable harm to retained features;
- 9 Ensure that the layout and design incorporates adequate space for waste and recycling bin storage and collection.

Carlisle District Local Plan 2001 - 2016

Core Development Policies - Policy CP17 - Planning Out Crime

The design of all new development must contribute to creating a safe and secure environment, integrating measures for security and crime prevention and minimising the opportunity for crime.

The following points should be applied to all development proposals:

- 1 Security measures should be an integral part of the design
- 2 Developments should be laid out and buildings positioned to maximise natural surveillance with the intention of creating a sense of neighbourhood and deterring criminal and anti-social activity
- 3 Public and private spaces should have clearly defined boundaries.
- 4 Footpaths and cycleways should be designed to maximise their use and prevent opportunities for concealment, unauthorised access or provide a choice of escape routes.
- 5 Landscaping schemes be designed to ensure that they do not create secluded areas, opportunities for climbing or reduce natural surveillance.
- 6 Lighting should deter criminal and antisocial activity whilst minimising light pollution. CCTV may be considered necessary in certain circumstances.

Developers should, at the earliest stage possible, consult Architectural Liaison Officer to advise on measures to be incorporated for designing out crime.

Carlisle District Local Plan 2001 - 2016

Housing - Policy H1 - Location Of New Housing Development

New housing development will be located in sustainable locations in accordance with PPS3: *Housing*, Regional Planning Guidance and the Joint Structure Plan. During the Plan period 80% of new development will be located within the urban area of Carlisle, including allocated sites on the edge of the City referred to in Proposal H16. The remaining 20% will be permitted in the rural area of the District with the focus on the two Key Service Centres of Brampton and Longtown. In the remainder of the rural area small-scale development will be located in accordance with Policy DP1 and other policies of this Plan to ensure that:

- 1 the site is well related to the landscape of the area and does not intrude into open countryside; and
- 2 the scale of the proposed development is well related to the scale, form and character of the existing settlement; and
- 3 the layout of the site and the design of the buildings is well related to existing property in the village; and
- 4 the siting and design of the buildings is well related to and does not adversely affect the amenity of neighbouring property; and
- 5 appropriate access and parking can be achieved; and
- 6 the proposal will not lead to the loss of amenity open space within or at the edge of the settlement; and
- 7 the proposal will not lead to the loss of the best and most versatile agricultural

land.

Settlement boundaries have been drawn for the following Local Service Centres within which proposals will be judged against the above criteria.

Burgh-by-Sands	Castle Carrock	Cummersdale
Cumwhinton	Dalston	Gilsland
Great Corby	Great Orton	Hallbankgate
Hayton	Heads Nook	Houghton
Irthington	Raughton Head	Rockcliffe
Scotby	Smithfield	Thurstonfield
Warwick Bridge (including Little Corby & Corby Hill)	Wetheral	

In the following settlements small-scale infilling (development between an otherwise continuous frontage) will be allowed where this does not conflict with the criteria above and is evidenced by local need to be in that location. S106 agreements may be used to ensure local occupancy to provide for the identified need.

Blackwell	Cardewlees	Cargo
Carleton	Cotehill	Cumwhitton
Durdar	Faugh	Harker
Hethersgill	How Mill	Lanercost
Laversdale	Low Row	Monkhill
Moorhouse	Talkin	Todhills
Walton	Warwick-on-Eden	Wreay

Carlisle District Local Plan 2001 - 2016

Housing - Policy H2 - Primary Residential Areas

Within the Primary Residential Areas defined on the Inset Maps for Carlisle, Brampton and Longtown, proposals for new residential development will be acceptable provided that:

- 1 existing areas of open space and other amenity areas are safeguarded; and
- 2 the proposed development does not adversely affect the amenity of adjacent residential property; and
- 3 the proposed development complements or enhances existing adjacent residential areas and their amenity; and
- 4 satisfactory access and appropriate parking arrangements can be achieved.

Proposals for non-residential uses will be permitted in Primary Residential Areas provided that they do not adversely affect residential amenity. Development that would create unacceptable noise, smell, safety and health impacts or excessive traffic generation will not be acceptable. The traffic impact of new development upon existing residents through inconvenience and detrimental effect will be taken into account. Such schemes falling within the scope of this policy will be considered against the above criteria as well as other policies of the Plan appropriate for the proposed use.

Outside the Primary Residential Areas and sites allocated under Proposal H16 for Carlisle, Brampton and Longtown, applications for residential development, including redevelopment and the change of use of vacant and underused buildings, will be only be permitted provided that:

- 1 satisfactory housing conditions can be achieved; and

- 2 the proposal will complement the existing character of the area; and
- 3 the proposal will not adversely affect the amenity of the area; and
- 4 satisfactory access can be provided; and
- 5 appropriate parking arrangements can be made.

Carlisle District Local Plan 2001 - 2016

Housing - Policy H5 - Affordable Housing

The City Council will negotiate with developers for an element of affordable housing to be included in the majority of housing developments.

All allocated housing sites and windfall sites of 10 or more dwellings in the urban area will be expected to make a contribution of 30% of units on-site towards affordable housing. Only in exceptional circumstances will the Council consider off-site contributions or a financial contribution in lieu of on-site provision.

In the rural area the contribution to affordable housing will be:

- 1 25% of housing on large sites (over 0.8ha or 25 dwellings)
- 2 20% of housing on medium sites (over 0.3ha or 10 dwellings)
- 3 10% of housing on small sites (over 0.1ha or 3 units)

The proportion of affordable housing sought will only be varied if this can be justified on a robust, evidence based, assessment of the economic viability of the site. Where intermediate affordable housing is to be provided at a discounted market value a discount of 25-30% will be sought and the discounted sale will be required to be in perpetuity.

Carlisle District Local Plan 2001 - 2016

Local Environment - Policy LE12 - Proposals Affecting Listed Buildings

Proposals for new development which adversely affects a listed building or its setting will not be permitted. Any new development within the setting of a listed building should preserve the building's character and its setting. The City Council will seek to encourage any new development to be sympathetic in scale, character and materials.

Carlisle District Local Plan 2001 - 2016

Local Environment - Policy LE19 - Conservation Areas

The City Council will continue to review existing and designate new conservation areas. Development proposals within and adjoining conservation areas will be granted planning permission provided they preserve or enhance their character and appearance. Any new development or alterations to existing buildings should harmonise with their surroundings and be in sympathy with the setting, scale, density and physical characteristics of conservation areas, and protect important views into or out of such areas. Applications for outline planning permission will not be accepted for proposals in conservation areas.

Proposals for new development and/or alterations to buildings in conservation areas will be judged against the following criteria:

- 1 the development should preserve or enhance all features which contribute

- positively to the area's character or appearance, in particular the design, massing and height of the building should closely relate to adjacent buildings and should not have an unacceptable impact on the townscape or landscape;
- 2 the development should not have an unacceptable impact on the historic street patterns and morphology, roofscape, skyline and setting of the conservation area, important open spaces or significant views into, out of and within the area;
 - 3 development proposals should not result in the amalgamation or redrawing of boundaries between traditional buildings and plots, or demolition and redevelopment behind retained facades;
 - 4 wherever practicable traditional local materials such as brick, stone and slate should be used and incongruous materials should be avoided;
 - 5 individual features both on buildings and contributing to their setting, should be retained e.g. doorways, windows, shopfronts, garden walls, railings, cobbled or flagged forecourts, sandstone kerbs, trees and hedges, etc. Where features have deteriorated to the extent to which they have to be replaced, the replacement should match the original;
 - 6 proposals which would generate a significant increase in traffic movements and heavy vehicles or excessive parking demands will not be permitted since these would be prejudicial to amenity;
 - 7 proposals which would require substantial car parking and servicing areas which can not be provided without an adverse effect on the site and its surroundings will not be permitted.

Carlisle District Local Plan 2001 - 2016

Transport - Policy T1- Parking Guidelines For Development

The level of car parking provision for development will be determined on the basis of the following factors:

- 1 the Parking Guidelines for Cumbria as updated by additional requirements in PPG 13;
- 2 the availability of public car parking in the vicinity;
- 3 the impact of parking provision on the environment of the surrounding area;
- 4 the likely impact on the surrounding road network; and
- 5 accessibility by and availability of, other forms of transport.

Carlisle District Local Plan 2001 - 2016

Leisure & Community Uses - Policy LC4 - Children's Play and Recreation Areas

New family housing developments of 40 or more dwellings will be required to include, pro rata, the following standards of play space provision:

Outdoor playgrounds 150m² per hectare

Informal playspace 270m² per hectare

In addition to the above, on development sites of 5 hectares or over, 0.1 hectares of sports ground development per hectare will be required.

On smaller housing sites the developer will be required to make commuted payments towards the provision of play space in the locality if there is a deficiency of play space in the local area judged against the Audit of Open Space currently being carried out by the City Council as required by PPG 17.

Children's play and recreation areas required by this policy will be dedicated to the City Council for maintenance purposes and a commuted payment equivalent to 10 year's maintenance costs will be required.

Proposal: Change Of Use Of Golf Practice Range/Course To Provide Extension To Existing Caravan Park To Form 16no. Additional Stances For Holiday Use (Revised Application)

Grant Permission

1. The development shall be begun not later than the expiration of 3 years beginning with the date of the grant of this permission.

Reason: In accordance with the provisions of Section 91 of the Town and Country Planning Act 1990 (as amended by Section 51 of the Planning and Compulsory Purchase Act 2004).

2. The approved documents for this Planning Permission comprise:
 1. the submitted planning application form received 18th February 2014;
 2. the Design and Access Statement received 18th February 2014;
 3. the Tree Survey received 27th February 2014;
 4. the site and block plan (drg. no. GP.3);
 5. the Notice of Decision; and
 6. any such variation as may subsequently be approved in writing by the Local Planning Authority.

Reason: To define the permission.

3. The static caravans shall only be occupied between the 1st March and the 31st January the following year.

Reason: To ensure that the approved caravans are not used for unauthorised permanent residential occupation in accordance with the objectives of Policy EC15 of the Carlisle District Local Plan 2001-2016.

4. The static caravans shall be used solely for holiday use and shall not be occupied as permanent accommodation.

Reason: To ensure that the approved caravans are not used for unauthorised permanent residential occupation in accordance with the objectives of Policy EC15 of the Carlisle District Local Plan

2001-2016.

5. The static caravans which occupy the stances hereby approved shall be finished in Acadia Green or Cedar Brown and remain so unless agreed in writing by the Local Planning Authority.

Reason: To safeguard the landscape character of the area in accordance with Policy CP1 of the Carlisle District Local Plan 2001-2016.

6. No caravan shall be occupied until the foul drainage system for each caravans occupying the stances hereby approved is connected to the package sewage treatment plant as indicated on Drawing Number GP.3.

Reason: To ensure that adequate foul drainage facilities are available in accordance with Policy CP12 of the Carlisle District Local Plan 2001-2016.

7. Notwithstanding any description of landscaping details in the application trees and shrubs shall be planted in accordance with a scheme to be agreed with the Local Planning Authority before work commences. The scheme shall include the use of native species and shall include particulars of the proposed heights and planting densities and shall be retained and maintained thereafter.

Reason: To ensure that a satisfactory landscaping scheme in prepared in accordance with Policy CP5 of the Carlisle District Local Plan 2001-2016.

8. All planting, seeding or turfing comprised in the approved details of landscaping shall be carried out in the first planting and seeding seasons following the occupation of the site or the completion of the development, whichever is the sooner, and maintained thereafter; and any trees or plants which die, are removed or become seriously damaged or diseased shall be replaced in the next planting season with others of similar size and species, unless the Local Planning Authority gives written consent to any variation.

Reason: To ensure that a satisfactory landscaping scheme is implemented and that it fulfils the objectives of Policy CP5 of the Carlisle District Local Plan 2001-2016.

9. Before any development is commenced on the site, including site works of any description, a protective fence in accordance with Fig. 2 in B.S. 5837: 2005 shall be erected around the trees and hedges to be retained at the extent of the Root Protection Area as calculated using the formula set out in B.S. 5837. Within the areas fenced off no fires should be lit, the existing ground level shall be neither raised nor lowered, and no materials, temporary buildings or surplus soil of any kind shall be placed or stored thereon. The fence shall thereafter be retained at all times during construction works on the site.

Reason: In order to ensure that adequate protection is afforded to all trees/hedges to be retained on site in support of Policies CP3 and CP5 of the Carlisle District Local Plan 2001-2016.

10. Prior to installation details of any proposed means of external lighting to serve the extension to the existing caravan park hereby permitted shall be submitted to and approved in writing beforehand by the Local Planning Authority.

Reason: To safeguard the character of the area.

Relevant Development Plan Policies

Carlisle District Local Plan 2001 - 2016

Spatial Strategy & Development Principles - Policy DP1 - Sustainable Development Locations

All proposals for development will be assessed against their ability to promote sustainable development. Proposals will be considered favourably in the following locations, provided they are in scale with their location and consistent with other Policies of this Local Plan.

Urban Area	City of Carlisle	
Key Service Centres	Brampton Longtown	
Local Service Centres	Burgh by Sands Castle Carrock Cummersdale Cumwhinton Dalston Gilsland Great Corby Great Orton Hallbankgate Hayton	Heads Nook Houghton Irthington Raughton Head Rockcliffe Scotby Smithfield Thurstonfield Warwick Bridge Wetheral

Proposals for development within these locations will be assessed on the basis of the need for development to be in the location specified.

Within the Urban Area proposals for retail, office and leisure developments will be subject to a sequential approach which requires that locations be considered as follows: firstly within the City Centres; secondly edge-of-centre locations; and thirdly the remainder of the urban area.

Proposals for residential development will be considered against the need to give priority to the reuse of previously developed land, with particular emphasis on vacant and derelict sites and buildings.

Settlement Boundaries have been established on the Proposals Map to recognise the extent of built development or where planning permission already exists to judge proposals for development and are not indicative of land ownership.

Outside these locations development will be assessed against the needs to be in the location specified.

Carlisle District Local Plan 2001 - 2016

Core Development Policies - Policy CP1 - Landscape Character

Proposals for development in the rural area must seek to conserve and enhance the special features and diversity of the different landscape character areas.

Development will be considered appropriate to the character of the landscape provided the proposal has regard to and conserves:

the landform and natural patterns of drainage;

- the pattern of trees and woodland;
- the habitats of species of importance for wildlife;
- the pattern and composition of field boundaries;
- the pattern of historic landscape features;
- the pattern and distribution of settlements

Carlisle District Local Plan 2001 - 2016

Core Development Policies - Policy CP2 - Biodiversity

Proposals in both the rural and urban area should not harm the integrity of the biodiversity resource as judged by key nature conservation principles, and proposals should seek to conserve and enhance the biodiversity value of the areas which they affect.

In areas where species protected under national and European legislation are most likely to occur, special account will be given to their presence in the consideration of development proposals.

Carlisle District Local Plan 2001 - 2016

Core Development Policies - Policy CP3 - Trees And Hedges On Development Sites

Proposals for new development should provide for the protection and integration of existing trees and hedges. Where trees and hedges are present, a survey will be required showing the following:

- 1 the location of existing trees and hedges;
- 2 the species, age, height and crown spread of each tree;
- 3 an assessment of the condition of each tree;
- 4 the location and crown spread of trees on adjacent land which may be affected by the development;
- 5 existing and proposed changes in ground level.

In order to protect and integrate existing trees and hedges within new development, the City Council will resist proposals which cause unacceptable tree loss, and which do not allow for the successful integration of existing trees identified in the tree survey.

Layouts will be required to provide adequate spacing between existing trees and buildings, taking into account the existing and future size of the trees, and their impact both above and below ground.

The City Council will protect existing trees and woodlands where appropriate, by tree preservation orders, and by the use of planning conditions requiring protective fencing around trees to be retained to prevent site works within their crown spread.

Carlisle District Local Plan 2001 - 2016

Core Development Policies - Policy CP5 - Design

All new development proposals will be assessed against the following design principles. Proposals should:

- 1 Respond to the local context and the form of surrounding buildings in relation to height, scale and massing, and by making use of appropriate materials and detailing;
- 2 Take into consideration any important landscape or topographical features and respect local landscape character;
- 3 Reinforce local architectural features, where appropriate, promoting and respecting local distinctiveness;
- 4 Ensure all components of the proposal, such as buildings, car parking, access routes, open space and landscaping, are well related to one another to ensure a well integrated, successful and attractive development;
- 5 Ensure there is no adverse effect on the residential amenity of existing areas, or adjacent land uses, or result in unacceptable standards for future users and occupiers of the development;
- 6 Ensure the retention and enhancement of existing trees, shrubs, hedges and other wildlife habitats where possible. Where environmental features are lost as a result of the proposal, appropriate mitigation measures should be put in place and on-site replacement of those features will be sought;
- 7 Include landscaping schemes (both hard and soft) to assist the integration of new development into existing areas and ensure that development on the edge of settlements is fully integrated into its surroundings;
- 8 Ensure that the necessary services and infrastructure can be incorporated without causing unacceptable harm to retained features;
- 9 Ensure that the layout and design incorporates adequate space for waste and recycling bin storage and collection.

Carlisle District Local Plan 2001 - 2016

Core Development Policies - Policy CP12 - Foul And Surface Water Sewerage And Sewage Treatment

Development will not be permitted where inadequate foul and surface water sewerage infrastructure and sewage treatment capacity exists, or where such provision can not be made within the time constraint of the planning permission.

Carlisle District Local Plan 2001 - 2016

Economic & Commercial Growth - Policy EC15 - Tourism Caravan Sites

Proposals for the development of caravan sites will be acceptable provided that:

- 1 The siting and scale of the proposal does not have an unacceptable adverse effect on the character of the local landscape; and
- 2 The site is adequately landscaped; and
- 3 The site is contained within existing landscape features; and
- 4 The level of traffic generated by the proposal can be adequately accommodated by the local road network without detriment to the particular rural character of the area;
- 5 Adequate access and appropriate car parking can be provided.

In addition, the Council will consider the need to impose seasonal restrictions through the use of planning conditions to safeguard the environment and landscape through the winter months.

Carlisle District Local Plan 2001 - 2016

Local Environment - Policy LE6 - Scheduled/Nationally Important Ancient

Monuments

Development will not be permitted where there is an unacceptable impact on scheduled and other nationally important ancient monuments and their settings.

Carlisle District Local Plan 2001 - 2016

Local Environment - Policy LE12 - Proposals Affecting Listed Buildings

Proposals for new development which adversely affects a listed building or its setting will not be permitted. Any new development within the setting of a listed building should preserve the building's character and its setting. The City Council will seek to encourage any new development to be sympathetic in scale, character and materials.

Proposal: Erection Of 1no. Dormer Bungalow

Grant Permission

1. The development shall be begun not later than the expiration of 3 years beginning with the date of the grant of this permission.

Reason: In accordance with the provisions of Section 91 of the Town and Country Planning Act 1990 (as amended by Section 51 of the Planning and Compulsory Purchase Act 2004).

2. The approved documents for this Planning Permission comprise:
 1. the submitted planning application form, received 28 February 2014;
 2. Design & Access Statement, received 28 February 2014
 3. Drainage Report (A.L.Daines letter, dated 19 February 2014, received 28 February 2014);
 4. Location Plan, received 28 February 2014 (Dwg No. 2013/10/1/006);
 5. Site Plan & Site Sections as Existing, received 28 February 2014 (Dwg No. 2013/10/1/004);
 6. Site Plan & Site Sections as Proposed, received 1 April 2014 (Dwg No. 2013/10/1/005);
 7. Ground Floor Plan & Sections, received 28 February 2014 (Dwg No. 2013/10/1/001);
 8. First Floor Plan & Elevations, received 28 February 2014 (Dwg No.

2013/10/1/002);

9. Roof Plan, received 28 February 2014 (Dwg No. 2013/10/1/003);
10. the Notice of Decision; and
11. any such variation as may subsequently be approved in writing by the Local Planning Authority.

Reason: To define the permission.

3. No development hereby approved by this permission shall commence until samples or full details of all materials to be used on the exterior of the dwelling have been submitted to and approved in writing by the Local Planning Authority. The development shall then be undertaken in accordance with the approved details.

Reason: To ensure the works harmonise as closely as possible with the existing building and to ensure compliance with Policy CP5 of the Carlisle District Local Plan 2001 - 2016.

4. No development shall take place until full details of hard and soft landscape works, including a phased programme of works, have been submitted to and approved in writing by the Local Planning Authority and these works shall be carried out as approved prior to the occupation of any part of the development or in accordance with the programme agreed by the Local Planning Authority. Any trees or other plants which die or are removed within the first five years following the implementation of the landscaping scheme shall be replaced during the next planting season.

Reason: To ensure that a satisfactory landscaping scheme is prepared and to ensure that areas of hardstanding are permeable, in accordance with Policies CP5 of the Carlisle District Local Plan 2001-2016.

5. No development shall commence until details of any walls, gates, fences and other means of permanent enclosure and/or boundary treatment to be erected have been submitted to and approved, in writing, by the Local Planning Authority.

Reason: To ensure the design and materials to be used are appropriate and to ensure compliance with Policy CP5 of the Carlisle District Local Plan 2001-2016.

6. No development approved by this permission shall be commenced until a scheme for the provision of surface water drainage works has been approved in writing by the Local Planning Authority. Such a scheme shall be constructed and completed in accordance with the approved plans.

Reason: To ensure a satisfactory means of surface water and foul drainage disposal and in accord with Policy CP12 of the Carlisle District Local Plan 2001-2016.

7. No tree or hedgerow existing on the site shall be felled, lopped, uprooted or layered without the prior consent in writing of the Local Planning Authority and the protection of all such trees and hedgerows during construction shall be ensured by a detailed scheme to be agreed with the Local Planning Authority.

Reason: The Local Planning Authority wishes to see existing hedgerows/trees incorporated into the new development where possible and to ensure compliance with Policy CP3 of the Carlisle District Local Plan 2001-2016.

8. Notwithstanding the provisions of the Town and Country Planning (General Permitted Development) Order 1995 (or any Order revoking and re-enacting that Order) there shall be no enlargement or external alterations to the dwelling to be erected in accordance with this permission, within the meaning of Schedule 2 Part (1) of these Orders, without the written approval of the Local Planning Authority.

Reason: To ensure that the character and attractive appearance of the buildings is not harmed by inappropriate alterations and/or extensions and that any additions which may subsequently be proposed satisfy the objectives of Policies CP5 and CP6 of the Carlisle District Local Plan 2001-2016.

9. In the event that contamination is found at any time when carrying out the approved development that was not previously identified it must be reported in writing immediately to the Local Planning Authority. An investigation and risk assessment must be undertaken and where remediation is necessary a remediation scheme must be prepared, which is subject to the approval in writing of the Local Planning Authority.

Site investigations should follow the guidance in BS10175.

Following completion of measures identified in the approved remediation scheme a verification report must be prepared, which is subject to the approval in writing of the Local Planning Authority.

Reason: To ensure that risks from land contamination to the future users of the land and neighbouring land are minimised, together with those to controlled waters, property and ecological systems, and to ensure that the development can be carried out safely without unacceptable risks to workers, neighbours and other offsite receptors.

10. The dwelling shall not be occupied until the vehicular access and turning requirements have been constructed in accordance with the approved plan and have been brought into use. The vehicular access turning provisions shall be retained and capable of use at all times thereafter and shall not be removed or altered without the prior consent of the Local Planning Authority.

Reason: To ensure a minimum standard of access provision when the development is brought into use and to support Local Transport Plan Policies LD5, LD7 & LD8.

11. The whole of the access area bounded by the carriageway edge, entrance gates and the splays shall be constructed and drained to the specification of the Local Planning Authority in consultation with the Highway Authority.

Reason: In the interests of highway safety and to support Local Transport Plan Policies LD5, LD7 & LD8.

Relevant Development Plan Policies

Carlisle District Local Plan 2001 - 2016

Spatial Strategy & Development Principles - Policy DP1 - Sustainable Development Locations

All proposals for development will be assessed against their ability to promote sustainable development. Proposals will be considered favourably in the following locations, provided they are in scale with their location and consistent with other Policies of this Local Plan.

Urban Area	City of Carlisle	
Key Service Centres	Brampton Longtown	
Local Service Centres	Burgh by Sands	Heads Nook
	Castle Carrock	Houghton
	Cummersdale	Irthington
	Cumwhinton	Raughton Head
	Dalston	Rockcliffe
	Gilsland	Scotby
	Great Corby	Smithfield
	Great Orton	Thurstonfield
	Hallbankgate	Warwick Bridge
	Hayton	Wetheral

Proposals for development within these locations will be assessed on the basis of the need for development to be in the location specified.

Within the Urban Area proposals for retail, office and leisure developments will be subject to a sequential approach which requires that locations be considered as follows: firstly within the City Centres; secondly edge-of-centre locations; and thirdly the remainder of the urban area.

Proposals for residential development will be considered against the need to give priority to the reuse of previously developed land, with particular emphasis on vacant and derelict sites and buildings.

Settlement Boundaries have been established on the Proposals Map to recognise the extent of built development or where planning permission already exists to judge proposals for development and are not indicative of land ownership.

Outside these locations development will be assessed against the needs to be in the location specified.

Carlisle District Local Plan 2001 - 2016

Spatial Strategy And Development Principles - Policy DP9 - Areas Of Outstanding Natural Beauty

Within the North Pennines and Solway Coast Areas of Outstanding Natural Beauty, and their settings, permission will not be given for development that would harm the

special characteristics and landscape quality of the areas. Development proposals must conserve or enhance the natural beauty of the areas, including scenic qualities, landform, ecology, geology, cultural interests, and the historic environment, so that these qualities can be enjoyed by present and future generations.

Major development of a national scale will only be permitted in exceptional circumstances where it can be demonstrated to be in the public interest. Development required to meet local infrastructure needs which cannot be located anywhere else will be permitted provided it is sited to minimise environmental impact and meet high standards of design.

Carlisle District Local Plan 2001 - 2016

Housing - Policy H1 - Location Of New Housing Development

New housing development will be located in sustainable locations in accordance with PPS3: *Housing*, Regional Planning Guidance and the Joint Structure Plan. During the Plan period 80% of new development will be located within the urban area of Carlisle, including allocated sites on the edge of the City referred to in Proposal H16. The remaining 20% will be permitted in the rural area of the District with the focus on the two Key Service Centres of Brampton and Longtown.

In the remainder of the rural area small-scale development will be located in accordance with Policy DP1 and other policies of this Plan to ensure that:

- 1 the site is well related to the landscape of the area and does not intrude into open countryside; and
- 2 the scale of the proposed development is well related to the scale, form and character of the existing settlement; and
- 3 the layout of the site and the design of the buildings is well related to existing property in the village; and
- 4 the siting and design of the buildings is well related to and does not adversely affect the amenity of neighbouring property; and
- 5 appropriate access and parking can be achieved; and
- 6 the proposal will not lead to the loss of amenity open space within or at the edge of the settlement; and
- 7 the proposal will not lead to the loss of the best and most versatile agricultural land.

Settlement boundaries have been drawn for the following Local Service Centres within which proposals will be judged against the above criteria.

Burgh-by-Sands	Castle Carrock	Cummersdale
Cumwhinton	Dalston	Gilsland
Great Corby	Great Orton	Hallbankgate
Hayton	Heads Nook	Houghton
Irthington	Raughton Head	Rockcliffe
Scotby	Smithfield	Thurstonfield
Warwick Bridge (including Little Corby & Corby Hill)	Wetheral	

In the following settlements small-scale infilling (development between an otherwise continuous frontage) will be allowed where this does not conflict with the criteria above and is evidenced by local need to be in that location. S106 agreements may

be used to ensure local occupancy to provide for the identified need.

Blackwell	Cardewlees	Cargo
Carleton	Cotehill	Cumwhitton
Durdar	Faugh	Harker
Hethersgill	How Mill	Lanercost
Laversdale	Low Row	Monkhill
Moorhouse	Talkin	Todhills
Walton	Warwick-on-Eden	Wreay

Carlisle District Local Plan 2001 - 2016 **Leisure & Community Uses - Policy LC8 - Rights Of Way**

Carlisle City Council will seek to retain all existing footpaths, bridleways and other rights of way and to establish new routes wherever possible. New development will seek to maintain the existing rights of way network and where possible local improvements and extensions will be sought as part of new developments. Proposals to close or divert existing rights of way will not be permitted unless an alternative route is available which is attractive, serves the same area and is not significantly longer than the original route.

Carlisle District Local Plan 2001 - 2016 **Core Development Policies - Policy CP3 - Trees And Hedges On Development Sites**

Proposals for new development should provide for the protection and integration of existing trees and hedges. Where trees and hedges are present, a survey will be required showing the following:

- 1 the location of existing trees and hedges;
- 2 the species, age, height and crown spread of each tree;
- 3 an assessment of the condition of each tree;
- 4 the location and crown spread of trees on adjacent land which may be affected by the development;
- 5 existing and proposed changes in ground level.

In order to protect and integrate existing trees and hedges within new development, the City Council will resist proposals which cause unacceptable tree loss, and which do not allow for the successful integration of existing trees identified in the tree survey.

Layouts will be required to provide adequate spacing between existing trees and buildings, taking into account the existing and future size of the trees, and their impact both above and below ground.

The City Council will protect existing trees and woodlands where appropriate, by tree preservation orders, and by the use of planning conditions requiring protective fencing around trees to be retained to prevent site works within their crown spread.

Carlisle District Local Plan 2001 - 2016 **Core Development Policies - Policy CP5 - Design**

All new development proposals will be assessed against the following design

principles. Proposals should:

- 1 Respond to the local context and the form of surrounding buildings in relation to height, scale and massing, and by making use of appropriate materials and detailing;
- 2 Take into consideration any important landscape or topographical features and respect local landscape character;
- 3 Reinforce local architectural features, where appropriate, promoting and respecting local distinctiveness;
- 4 Ensure all components of the proposal, such as buildings, car parking, access routes, open space and landscaping, are well related to one another to ensure a well integrated, successful and attractive development;
- 5 Ensure there is no adverse effect on the residential amenity of existing areas, or adjacent land uses, or result in unacceptable standards for future users and occupiers of the development;
- 6 Ensure the retention and enhancement of existing trees, shrubs, hedges and other wildlife habitats where possible. Where environmental features are lost as a result of the proposal, appropriate mitigation measures should be put in place and on-site replacement of those features will be sought;
- 7 Include landscaping schemes (both hard and soft) to assist the integration of new development into existing areas and ensure that development on the edge of settlements is fully integrated into its surroundings;
- 8 Ensure that the necessary services and infrastructure can be incorporated without causing unacceptable harm to retained features;
- 9 Ensure that the layout and design incorporates adequate space for waste and recycling bin storage and collection.

Carlisle District Local Plan 2001 - 2016

Core Development Policies - Policy CP12 - Foul And Surface Water Sewerage And Sewage Treatment

Development will not be permitted where inadequate foul and surface water sewerage infrastructure and sewage treatment capacity exists, or where such provision can not be made within the time constraint of the planning permission.

Carlisle District Local Plan 2001 - 2016

Transport - Policy T1- Parking Guidelines For Development

The level of car parking provision for development will be determined on the basis of the following factors:

- 1 the Parking Guidelines for Cumbria as updated by additional requirements in PPG 13;
- 2 the availability of public car parking in the vicinity;
- 3 the impact of parking provision on the environment of the surrounding area;
- 4 the likely impact on the surrounding road network; and
- 5 accessibility by and availability of, other forms of transport.

Proposal: Variation Of Condition 28 (Highway Improvement Scheme) Of Previously
Approved Permission 00/0439

Grant Permission

1. The development shall be begun not later than the expiration of 3 years beginning with the date of the grant of this permission.

Reason: In accordance with the provisions of Section 91 of the Town and Country Planning Act 1990 (as amended by Section 51 of the Planning and Compulsory Purchase Act 2004).

2. The approved documents for this Planning Permission comprise:

1. the Planning Application Form received 20th February 2014;
2. the Site Location Plan received 27th February 2014;
3. the Notice of Decision.

Reason: To define the permission.

3. With the exception of condition 28, the development shall be carried out in accordance with the remaining conditions attached to the "Outline" permission approved under application 00/0439.

Reason: For the avoidance of doubt.

4. Before the commencement of development the applicant/ developer shall enter into an agreement with the Highway Authority under Section 278 of the Highways Act 1980 (as amended) which shall make provision for the completion of a highway improvement scheme along Dalston Road and Peter Lane in accordance with details to be agreed beforehand by the Local Planning Authority. The aforementioned scheme (which will include the provision of footways, road lighting, and, the widening and strengthening of the existing carriageways) shall be completed before any unit on the site is occupied.

Reason: To ensure that the surrounding highway network is capable of carrying the volumes of vehicular and pedestrian traffic likely to be generated by the proposed development.

Relevant Development Plan Policies

Carlisle District Local Plan 2001 - 2016
Core Development Policies - Policy CP5 - Design

All new development proposals will be assessed against the following design principles. Proposals should:

- 1 Respond to the local context and the form of surrounding buildings in relation to height, scale and massing, and by making use of appropriate materials and detailing;
- 2 Take into consideration any important landscape or topographical features and respect local landscape character;
- 3 Reinforce local architectural features, where appropriate, promoting and respecting local distinctiveness;
- 4 Ensure all components of the proposal, such as buildings, car parking, access routes, open space and landscaping, are well related to one another to ensure a well integrated, successful and attractive development;
- 5 Ensure there is no adverse effect on the residential amenity of existing areas, or adjacent land uses, or result in unacceptable standards for future users and occupiers of the development;
- 6 Ensure the retention and enhancement of existing trees, shrubs, hedges and other wildlife habitats where possible. Where environmental features are lost as a result of the proposal, appropriate mitigation measures should be put in place and on-site replacement of those features will be sought;
- 7 Include landscaping schemes (both hard and soft) to assist the integration of new development into existing areas and ensure that development on the edge of settlements is fully integrated into its surroundings;
- 8 Ensure that the necessary services and infrastructure can be incorporated without causing unacceptable harm to retained features;
- 9 Ensure that the layout and design incorporates adequate space for waste and recycling bin storage and collection.

Carlisle District Local Plan 2001 - 2016

Transport - Policy T1- Parking Guidelines For Development

The level of car parking provision for development will be determined on the basis of the following factors:

- 1 the Parking Guidelines for Cumbria as updated by additional requirements in PPG 13;
- 2 the availability of public car parking in the vicinity;
- 3 the impact of parking provision on the environment of the surrounding area;
- 4 the likely impact on the surrounding road network; and
- 5 accessibility by and availability of, other forms of transport.

Grant Permission

1. The development shall be begun not later than the expiration of 3 years beginning with the date of the grant of this permission.

Reason: In accordance with the provisions of Section 91 of the Town and Country Planning Act 1990 (as amended by Section 51 of the Planning and Compulsory Purchase Act 2004).

2. The approved documents for this Planning Permission comprise:
 1. the submitted planning application form;
 2. the Location Plan received 10th March 2014;
 3. the block plan received 10th March 2014;
 4. the existing plans received 10th March 2014;
 6. the proposed elevations received 10th March 2014;
 7. the proposed ground floor plan received 10th March 2014;
 8. the proposed first floor plan received 10th March 2014;
 9. the design and access statement received 10th March 2014;
 10. the Notice of Decision; and
 11. any such variation as may subsequently be approved in writing by the Local Planning Authority.

Reason: To define the permission.

3. The materials (and finishes) to be used in the construction of the proposed development shall be in accordance with the details contained in the submitted application, unless otherwise agreed in writing by the Local Planning Authority.

Reason: To ensure the objectives of Policy CP5 of the Carlisle District Local Plan 2001-2016 are met and to ensure a satisfactory external appearance for the completed development.

4. No development shall take place until full details of hard and soft landscape works, including a phased programme of works, have been submitted to and approved in writing by the Local Planning Authority and these works shall be carried out as approved prior to the occupation of any part of the development or in accordance with the programme agreed by the Local Planning Authority. Any trees or other plants which die or are removed within the first five years following the implementation of the landscaping scheme shall be replaced during the next planting season.

Reason: To ensure that a satisfactory landscaping scheme is prepared and to ensure compliance with Policy CP5 of the Carlisle District Local Plan 2001-2016.

5. No development shall commence until details of any walls, gates, fences and other means of permanent enclosure and/or boundary treatment to be erected have been submitted to and approved, in writing, by the Local Planning Authority.

Reason: To ensure suitable boundary treatment is erected in accordance with Policy CP5 of the Carlisle District Local Plan 2001-2016.

6. No development approved by this permission shall be commenced until a scheme for the provision of surface water drainage works has been approved in writing by the Local Planning Authority. Such a scheme shall be constructed and completed in accordance with the approved plans.

Reason: To ensure a satisfactory means of surface water disposal and in accord with Policy CP12 of the Carlisle District Local Plan 2001-2016.

7. The whole of the vehicular access area bounded by the carriageway edge and the highway boundary shall be constructed and drained to the specification of the Local Highways Authority.

Reason: In the interests of road safety and to support Local Transport Plan Policies LD5, LD7 & LD8.

8. Neither dwelling shall be occupied until its vehicular access and parking requirements have been constructed in accordance with the approved plan and brought into use. These facilities shall be retained and capable of use at all times thereafter and shall not be removed or altered without the prior consent of the Local Planning Authority.

Reason: To ensure a minimum standard of access provision when the development is brought into use and to support Local Transport Plan Policies LD5, LD7 & LD8.

Summary of Reasons for the Decision

The decision to grant planning permission has been taken having regard to the Development Plan, including Supplementary Planning Guidance/ Documents and Design Guidance. The relevant Development Plan policies and Supplementary Guidance have been considered in conjunction with comments received from consultees (including statutory consultees), together with other material planning considerations. On balance the proposal was regarded as acceptable and it was considered that the development does not cause demonstrable harm to interests of acknowledged importance that justifies withholding permission.

Relevant Development Plan Policies

Carlisle District Local Plan 2001 - 2016

Spatial Strategy & Development Principles - Policy DP1 - Sustainable Development Locations

All proposals for development will be assessed against their ability to promote sustainable development. Proposals will be considered favourably in the following locations, provided they are in scale with their location and consistent with other Policies of this Local Plan.

Urban Area	City of Carlisle	
Key Service Centres	Brampton Longtown	
Local Service Centres	Burgh by Sands Castle Carrock Cummersdale Cumwhinton Dalston Gilsland Great Corby Great Orton Hallbankgate Hayton	Heads Nook Houghton Irthington Raughton Head Rockcliffe Scotby Smithfield Thurstonfield Warwick Bridge Wetheral

Proposals for development within these locations will be assessed on the basis of the need for development to be in the location specified.

Within the Urban Area proposals for retail, office and leisure developments will be subject to a sequential approach which requires that locations be considered as follows: firstly within the City Centres; secondly edge-of-centre locations; and thirdly the remainder of the urban area.

Proposals for residential development will be considered against the need to give priority to the reuse of previously developed land, with particular emphasis on vacant and derelict sites and buildings.

Settlement Boundaries have been established on the Proposals Map to recognise the extent of built development or where planning permission already exists to judge proposals for development and are not indicative of land ownership.

Outside these locations development will be assessed against the needs to be in the location specified.

Carlisle District Local Plan 2001 - 2016

Core Development Policies - Policy CP1 - Landscape Character

Proposals for development in the rural area must seek to conserve and enhance the special features and diversity of the different landscape character areas.

Development will be considered appropriate to the character of the landscape provided the proposal has regard to and conserves:

the landform and natural patterns of drainage;

- the pattern of trees and woodland;
- the habitats of species of importance for wildlife;
- the pattern and composition of field boundaries;
- the pattern of historic landscape features;
- the pattern and distribution of settlements

Carlisle District Local Plan 2001 - 2016

Core Development Policies - Policy CP2 - Biodiversity

Proposals in both the rural and urban area should not harm the integrity of the biodiversity resource as judged by key nature conservation principles, and proposals should seek to conserve and enhance the biodiversity value of the areas which they affect.

In areas where species protected under national and European legislation are most likely to occur, special account will be given to their presence in the consideration of development proposals.

Carlisle District Local Plan 2001 - 2016

Core Development Policies - Policy CP3 - Trees And Hedges On Development Sites

Proposals for new development should provide for the protection and integration of existing trees and hedges. Where trees and hedges are present, a survey will be required showing the following:

- 1 the location of existing trees and hedges;
- 2 the species, age, height and crown spread of each tree;
- 3 an assessment of the condition of each tree;
- 4 the location and crown spread of trees on adjacent land which may be affected by the development;
- 5 existing and proposed changes in ground level.

In order to protect and integrate existing trees and hedges within new development, the City Council will resist proposals which cause unacceptable tree loss, and which do not allow for the successful integration of existing trees identified in the tree survey.

Layouts will be required to provide adequate spacing between existing trees and buildings, taking into account the existing and future size of the trees, and their impact both above and below ground.

The City Council will protect existing trees and woodlands where appropriate, by tree preservation orders, and by the use of planning conditions requiring protective fencing around trees to be retained to prevent site works within their crown spread.

Carlisle District Local Plan 2001 - 2016

Core Development Policies - Policy CP4 - Agricultural Land

Permission will not be given for development where it would lead to the loss of the best and most versatile agricultural land, unless:

- 1 there is an overriding need for the development; and
- 2 there is insufficient land of a lower grade available; or
- 3 available lower grade land has a statutory landscape, wildlife, historic or archaeological designation.

Carlisle District Local Plan 2001 - 2016

Core Development Policies - Policy CP5 - Design

All new development proposals will be assessed against the following design principles. Proposals should:

- 1 Respond to the local context and the form of surrounding buildings in relation to height, scale and massing, and by making use of appropriate materials and detailing;
- 2 Take into consideration any important landscape or topographical features and respect local landscape character;
- 3 Reinforce local architectural features, where appropriate, promoting and respecting local distinctiveness;

- 4 Ensure all components of the proposal, such as buildings, car parking, access routes, open space and landscaping, are well related to one another to ensure a well integrated, successful and attractive development;
- 5 Ensure there is no adverse effect on the residential amenity of existing areas, or adjacent land uses, or result in unacceptable standards for future users and occupiers of the development;
- 6 Ensure the retention and enhancement of existing trees, shrubs, hedges and other wildlife habitats where possible. Where environmental features are lost as a result of the proposal, appropriate mitigation measures should be put in place and on-site replacement of those features will be sought;
- 7 Include landscaping schemes (both hard and soft) to assist the integration of new development into existing areas and ensure that development on the edge of settlements is fully integrated into its surroundings;
- 8 Ensure that the necessary services and infrastructure can be incorporated without causing unacceptable harm to retained features;
- 9 Ensure that the layout and design incorporates adequate space for waste and recycling bin storage and collection.

Carlisle District Local Plan 2001 - 2016

Core Development Policies - Policy CP12 - Foul And Surface Water Sewerage And Sewage Treatment

Development will not be permitted where inadequate foul and surface water sewerage infrastructure and sewage treatment capacity exists, or where such provision can not be made within the time constraint of the planning permission.

Carlisle District Local Plan 2001 - 2016

Housing - Policy H1 - Location Of New Housing Development

New housing development will be located in sustainable locations in accordance with PPS3: *Housing*, Regional Planning Guidance and the Joint Structure Plan. During the Plan period 80% of new development will be located within the urban area of Carlisle, including allocated sites on the edge of the City referred to in Proposal H16. The remaining 20% will be permitted in the rural area of the District with the focus on the two Key Service Centres of Brampton and Longtown.

In the remainder of the rural area small-scale development will be located in accordance with Policy DP1 and other policies of this Plan to ensure that:

- 1 the site is well related to the landscape of the area and does not intrude into open countryside; and
- 2 the scale of the proposed development is well related to the scale, form and character of the existing settlement; and
- 3 the layout of the site and the design of the buildings is well related to existing property in the village; and
- 4 the siting and design of the buildings is well related to and does not adversely affect the amenity of neighbouring property; and
- 5 appropriate access and parking can be achieved; and
- 6 the proposal will not lead to the loss of amenity open space within or at the edge of the settlement; and
- 7 the proposal will not lead to the loss of the best and most versatile agricultural land.

Settlement boundaries have been drawn for the following Local Service Centres within which proposals will be judged against the above criteria.

Burgh-by-Sands	Castle Carrock	Cummersdale
Cumwhinton	Dalston	Gilsland
Great Corby	Great Orton	Hallbankgate
Hayton	Heads Nook	Houghton
Irthington	Raughton Head	Rockcliffe
Scotby	Smithfield	Thurstonfield
Warwick Bridge (including Little Corby & Corby Hill)	Wetheral	

In the following settlements small-scale infilling (development between an otherwise continuous frontage) will be allowed where this does not conflict with the criteria above and is evidenced by local need to be in that location. S106 agreements may be used to ensure local occupancy to provide for the identified need.

Blackwell	Cardewlees	Cargo
Carleton	Cotehill	Cumwhitton
Durdar	Faugh	Harker
Hethersgill	How Mill	Lanercost
Laversdale	Low Row	Monkhill
Moorhouse	Talkin	Todhills
Walton	Warwick-on-Eden	Wreay

Carlisle District Local Plan 2001 - 2016

Transport - Policy T1- Parking Guidelines For Development

The level of car parking provision for development will be determined on the basis of the following factors:

- 1 the Parking Guidelines for Cumbria as updated by additional requirements in PPG 13;
- 2 the availability of public car parking in the vicinity;
- 3 the impact of parking provision on the environment of the surrounding area;
- 4 the likely impact on the surrounding road network; and
- 5 accessibility by and availability of, other forms of transport.

Item no: 06

Appn Ref No: 14/0212	Applicant: Mrs Brenda Chambers	Parish:
Date of Receipt: 14/03/2014	Agent:	Ward: Upperby
Location: Land Adjacent 337 Blackwell Road, Carlisle, CA2 4RU		Grid Reference: 340252 553473

Proposal: Erection Of 1No. Dwelling (Outline)

Refuse Permission

1. **Reason:** The proposed development will be located in close proximity to a large healthy mature Oak Tree covered by Tree Preservation Order No.104 which is visible from a range of public viewpoints including the public highway and neighbouring public park at Hammonds Pond. The tree makes a significant contribution to the amenity and character of the surrounding area. In relation to where the proposed dwelling could be sited and the existing presence of the Oak Tree, the trunk of which is located approximately 6 metres from the eastern boundary of the application site, it is considered that little if any direct sunlight will reach any easterly facing windows; sunlight will only reach the garden for relatively short periods of time; and the tree will block significant amounts of attenuated light throughout the year. Furthermore, the tree can be viewed as forming an oppressive and overbearing feature which will, through falling leaves and use by wildlife such as birds, be detrimental to the living conditions of any occupiers of the proposed dwelling. These poor conditions would inevitably result in pressure from future occupiers of the proposed dwelling to prune or fell the tree to the significant detriment of the amenity and character of the area. In such circumstances the proposal is therefore considered to represent overdevelopment of the site contrary to the underlying objectives of the NPPF, Policy CP3, Criteria 2, 5 and 6 of Policy CP5 and Criterion 3 of Policy H2 of the Carlisle District Local Plan 2001-2016.

Relevant Development Plan Policies

Carlisle District Local Plan 2001 - 2016

Spatial Strategy & Development Principles - Policy DP1 - Sustainable Development Locations

All proposals for development will be assessed against their ability to promote sustainable development. Proposals will be considered favourably in the following locations, provided they are in scale with their location and consistent with other Policies of this Local Plan.

Urban Area City of Carlisle

Key Service Centres Brampton
 Longtown

Local Service Centres	Burgh by Sands	Heads Nook

	Cummersdale	Irthington
	Cumwhinton	Raughton Head
	Dalston	Rockcliffe
	Gilsland	Scotby
	Great Corby	Smithfield
	Great Orton	Thurstonfield
	Hallbankgate	Warwick Bridge
	Hayton	Wetheral

Proposals for development within these locations will be assessed on the basis of the need for development to be in the location specified.

Within the Urban Area proposals for retail, office and leisure developments will be subject to a sequential approach which requires that locations be considered as follows: firstly within the City Centres; secondly edge-of-centre locations; and thirdly the remainder of the urban area.

Proposals for residential development will be considered against the need to give priority to the reuse of previously developed land, with particular emphasis on vacant and derelict sites and buildings.

Settlement Boundaries have been established on the Proposals Map to recognise the extent of built development or where planning permission already exists to judge proposals for development and are not indicative of land ownership.

Outside these locations development will be assessed against the needs to be in the location specified.

Carlisle District Local Plan 2001 - 2016

Core Development Policies - Policy CP1 - Landscape Character

Proposals for development in the rural area must seek to conserve and enhance the special features and diversity of the different landscape character areas.

Development will be considered appropriate to the character of the landscape provided the proposal has regard to and conserves:

the landform and natural patterns of drainage;

- the pattern of trees and woodland;
- the habitats of species of importance for wildlife;
- the pattern and composition of field boundaries;
- the pattern of historic landscape features;
- the pattern and distribution of settlements

Carlisle District Local Plan 2001 - 2016

Core Development Policies - Policy CP2 - Biodiversity

Proposals in both the rural and urban area should not harm the integrity of the biodiversity resource as judged by key nature conservation principles, and proposals should seek to conserve and enhance the biodiversity value of the areas which they affect.

In areas where species protected under national and European legislation are most likely to occur, special account will be given to their presence in the consideration of development proposals.

Carlisle District Local Plan 2001 - 2016

Core Development Policies - Policy CP3 - Trees And Hedges On Development Sites

Proposals for new development should provide for the protection and integration of existing trees and hedges. Where trees and hedges are present, a survey will be required showing the following:

- 1 the location of existing trees and hedges;
- 2 the species, age, height and crown spread of each tree;
- 3 an assessment of the condition of each tree;
- 4 the location and crown spread of trees on adjacent land which may be affected by the development;
- 5 existing and proposed changes in ground level.

In order to protect and integrate existing trees and hedges within new development, the City Council will resist proposals which cause unacceptable tree loss, and which do not allow for the successful integration of existing trees identified in the tree survey.

Layouts will be required to provide adequate spacing between existing trees and buildings, taking into account the existing and future size of the trees, and their impact both above and below ground.

The City Council will protect existing trees and woodlands where appropriate, by tree preservation orders, and by the use of planning conditions requiring protective fencing around trees to be retained to prevent site works within their crown spread.

Carlisle District Local Plan 2001 - 2016 **Core Development Policies - Policy CP5 - Design**

All new development proposals will be assessed against the following design principles. Proposals should:

- 1 Respond to the local context and the form of surrounding buildings in relation to height, scale and massing, and by making use of appropriate materials and detailing;
- 2 Take into consideration any important landscape or topographical features and respect local landscape character;
- 3 Reinforce local architectural features, where appropriate, promoting and respecting local distinctiveness;
- 4 Ensure all components of the proposal, such as buildings, car parking, access routes, open space and landscaping, are well related to one another to ensure a well integrated, successful and attractive development;
- 5 Ensure there is no adverse effect on the residential amenity of existing areas, or adjacent land uses, or result in unacceptable standards for future users and occupiers of the development;
- 6 Ensure the retention and enhancement of existing trees, shrubs, hedges and other wildlife habitats where possible. Where environmental features are lost as a result of the proposal, appropriate mitigation measures should be put in place and on-site replacement of those features will be sought;
- 7 Include landscaping schemes (both hard and soft) to assist the integration of new development into existing areas and ensure that development on the edge of settlements is fully integrated into its surroundings;
- 8 Ensure that the necessary services and infrastructure can be incorporated without causing unacceptable harm to retained features;
- 9 Ensure that the layout and design incorporates adequate space for waste and recycling bin storage and collection.

Carlisle District Local Plan 2001 - 2016 **Core Development Policies - Policy CP10 - Sustainable Drainage Systems**

Sustainable drainage systems (SUDS) should be incorporated into development proposals when the following conditions apply:

- 1 The development will generate an increase in surface water run-off; and
- 2 The rate of surface water run-off is likely to create or exacerbate flooding problems

Where SUDS are incorporated the following details shall be provided:

- 1 The type of SUDS; and
- 2 Hydraulic design details/calculations; and
- 3 Pollution prevention and water quality treatment measures together with details of pollutant removal capacity; and
- 4 Operation, maintenance and adoption details (SUDS structures will not be adopted by the statutory sewerage undertaker unless maintenance and legal agreements are in place).

Carlisle District Local Plan 2001 - 2016

Core Development Policies - Policy CP11 - Protection Of Groundwaters And Surface Waters

Proposals for development which would cause demonstrable harm to the quality, quantity and associated ecological features of groundwater and surface waters will not be permitted.

Carlisle District Local Plan 2001 - 2016

Core Development Policies - Policy CP12 - Foul And Surface Water Sewerage And Sewage Treatment

Development will not be permitted where inadequate foul and surface water sewerage infrastructure and sewage treatment capacity exists, or where such provision can not be made within the time constraint of the planning permission.

Carlisle District Local Plan 2001 - 2016

Housing - Policy H2 - Primary Residential Areas

Within the Primary Residential Areas defined on the Inset Maps for Carlisle, Brampton and Longtown, proposals for new residential development will be acceptable provided that:

- 1 existing areas of open space and other amenity areas are safeguarded; and
- 2 the proposed development does not adversely affect the amenity of adjacent residential property; and
- 3 the proposed development complements or enhances existing adjacent residential areas and their amenity; and
- 4 satisfactory access and appropriate parking arrangements can be achieved.

Proposals for non-residential uses will be permitted in Primary Residential Areas provided that they do not adversely affect residential amenity. Development that would create unacceptable noise, smell, safety and health impacts or excessive traffic generation will not be acceptable. The traffic impact of new development upon existing residents through inconvenience and detrimental effect will be taken into account. Such schemes falling within the scope of this policy will be considered against the above criteria as well as other policies of the Plan appropriate for the

proposed use.

Outside the Primary Residential Areas and sites allocated under Proposal H16 for Carlisle, Brampton and Longtown, applications for residential development, including redevelopment and the change of use of vacant and underused buildings, will be only be permitted provided that:

- 1 satisfactory housing conditions can be achieved; and
- 2 the proposal will complement the existing character of the area; and
- 3 the proposal will not adversely affect the amenity of the area; and
- 4 satisfactory access can be provided; and
- 5 appropriate parking arrangements can be made.

Carlisle District Local Plan 2001 - 2016

Transport - Policy T1- Parking Guidelines For Development

The level of car parking provision for development will be determined on the basis of the following factors:

- 1 the Parking Guidelines for Cumbria as updated by additional requirements in PPG 13;
- 2 the availability of public car parking in the vicinity;
- 3 the impact of parking provision on the environment of the surrounding area;
- 4 the likely impact on the surrounding road network; and
- 5 accessibility by and availability of, other forms of transport.

Proposal: Erection Of 7 Dwellings, Including 2 Affordable Units And The Change Of Use Of Agricultural Land To Domestic Garden To Serve The Property Known As 'Hallcroft' (Outline Application)

Members will recall at Committee meeting held on 20 December 2013 that authority was given to the Director (Economic Development) to issue approval subject to the completion of a S106 Agreement to ensure the provision of 2 affordable housing units. The S106 Agreement has been completed and approval was issued on 24 April 2014.

Granted Subject to Legal Agreement

1. In case of any "Reserved Matter" application for approval shall be made not later than the expiration of 3 years beginning with the date of this permission, and the development shall be begun not later than whichever is the later of the following dates:

- i) The expiration of 3 years from the date of the grant of this permission, or
- ii) The expiration of 2 years from the final approval of the reserved matters, or, in the case of approval on different dates, the final approval of the last such matter to be approved.

Reason: In accordance with the provisions of Section 92 of the Town and Country Planning Act 1990 (as amended by The Planning and Compulsory Purchase Act 2004).

2. Before any work is commenced, details of the layout, scale, appearance, access and landscaping of the site (hereinafter called "reserved matters") shall be submitted to and approved by the local planning authority.

Reason: The application was submitted as an outline application in accordance with the provisions of Article 3 of the Town and Country Planning (General Development Procedure) Order 1995.

3. The approved documents for this Planning Permission comprise:

1. the Planning Application Form received 13th September 2013;
2. the Location Plan received 13th September 2013;
3. the Indicative Layout received 21st November 2013 (Drawing no. 11285-01B);
4. the Indicative Drainage Layout received 13th September 2013 (Drawing no. 11285-02);
5. the Planning Statement 13th September 2013;
6. the Statement On Land Contamination 13th September 2013;
7. the Tree Report received 13th September 2013;
8. the Notice of Decision;
9. any such variation as may subsequently be approved in writing by the Local Planning Authority.

Reason: To define the permission.

4. Samples or full details of all materials to be used on the exterior shall be submitted to and approved in writing by the Local Planning Authority before any work is commenced. The development shall then be undertaken in accordance with the approved details.

Reason: To ensure the materials are appropriate to the building and character of the area in accordance with Policy CP5 of the Carlisle District Local Plan 2001-2016.

5. Details of the relative heights of the existing and proposed ground levels and the height of the proposed finished floor levels of the dwellings and garages shall be submitted to and approved in writing by the local planning authority before any site works commence. The development shall then be undertaken in accordance with the approved details.

Reason: In order that the approved development is appropriately located within the topography of the land in accordance with Policy CP5 of

the Carlisle District Local Plan 2001-2016.

6. Prior to the commencement of development hereby approved by this permission a scheme for the provision of surface water drainage works shall be submitted to and approved in writing by the Local Planning Authority. Such a scheme shall include the investigation and, where possible, the inclusion of SUDs and shall be constructed and completed in accordance with the approved plans prior to the occupation of any dwelling.

Reason: To ensure a satisfactory means of surface water disposal and in accordance with Policy CP12 of the Carlisle District Local Plan 2001-2016.

7. No development approved by this permission shall be commenced until a scheme for the conveyance of foul drainage has been submitted to and approved in writing by the Local Planning Authority. No part of the development shall be brought into use until such treatment plant has been constructed and completed in accordance with the approved plans. The development shall then be undertaken in accordance with the approved plans.

Reason: To prevent pollution of the water environment in accordance with Policy CP12 of the Carlisle District Local Plan 2001-2016.

8. Prior to the commencement of development hereby approved, details of a landscaping scheme have been submitted to and approved in writing by the Local Planning Authority.

Reason: To ensure that a satisfactory landscaping scheme is prepared in accordance with Policy CP5 of the Carlisle District Local Plan 2001-2016.

9. All planting, seeding or turfing comprised in the approved details of landscaping shall be carried out in the first planting and seeding seasons following the occupation of the building or the completion of the development, whichever is the sooner, and maintained thereafter to the satisfaction of the Council; and any trees or plants which within a period of 5 years from the completion of the development die, are removed or become seriously damaged or diseased shall be replaced in the next planting season with others of similar size and species, unless the Local Planning Authority gives written consent to any variation.

Reason: To ensure that a satisfactory landscaping scheme is implemented in accordance with Policy CP5 of the Carlisle District Local Plan 2001-2016.

10. The shared access way shall be designed, constructed and drained to a standard suitable for adoption and in this respect full engineering details shall be submitted for approval before work commences on site. Any works so approved shall be constructed before the development is complete.

Reason: In the interests of road safety and to support Local Transport Plan Policies LD5, LD7 and LD8.

11. Full details of the surface water drainage system shall be submitted with the first reserved matters application for approval prior to construction works being commenced. Any approved works shall be implemented prior to the development being completed and shall be maintained operational thereafter.

Reason: In the interest of highway safety and environmental management and to support Local Transport Plan Policies LD7 and LD8.

12. No dwelling shall be occupied until the vehicular access and parking requirements have been constructed in accordance with the approved plan and brought into use. These facilities shall be retained and capable of use at all times thereafter and shall not be removed or altered without the prior written consent of the Local Planning Authority.

Reason: To ensure a minimum standard of access provision when the development is brought into use and to support Local Transport Plan Policies LD5, LD7 and LD8.

13. Before any development takes place, a plan shall be submitted for the prior approval of the Local Planning Authority reserving adequate land for the storage of materials, parking of vehicles and plant engaged in construction operations associated with the development hereby approved, and that land, including vehicular access thereto, shall be used for or be kept available for these purposes at all times until completion of the construction works.

Reason: The carrying out of this development without the provision of these facilities during the construction works is likely to lead to inconvenience and danger to road users and to support Local Transport Plan Policy LD8.

14. No development shall commence until visibility splays providing clear visibility of 43 metres measured along the nearside channel lines of the public road from a position of 2.4 metres inset from the carriageway edge, on the centre line of the access, at a height of 1.05 metres, have been provided. Notwithstanding the provision of the Town and Country Planning (General Permitted Development) Order 1995 (or any Order revoking and re-enacting that Order) relating to permitted development, no structure or object of any kind shall be erected, parked or placed and no trees, bushes or other plants shall be planted or be permitted to grow within the visibility splay which obstruct the visibility splays.

Reason: In the interests of highway safety and to support Local Transport Plan Policies LD7 and LD8.

15. Before development commences a scheme of tree and hedge protection shall be submitted to and approved in writing by the Local Planning Authority. The scheme shall show the position and type of barriers to be installed. The barriers shall be erected before development commences and retained for the duration of the development.

Reason: To protect trees and hedges during development works in accordance with Policy CP3 of the Carlisle District Local Plan 2001-2016.

16. Before development commences a scheme of tree and hedge protection shall be submitted to and approved in writing by the Local Planning Authority. The scheme shall show the position and type of barriers to be installed. The barriers shall be erected before development commences and retained for the duration of the development.

Reason: To protect trees and hedges during development works in accordance with Policy CP3 of the Carlisle District Local Plan 2001-2016.

17. Prior to the commencement of development hereby approved, a Method Statement detailing the type of materials and construction methods to be used in the Root Protection Areas shall be submitted to and approved in writing by the Local Planning Authority. The development shall be undertaken in accordance with the approved details.

Reason: To protect the trees on and adjacent the site in accordance with Policy CP3 of the Carlisle District Local Plan 2001-2016.

18. In the event that contamination is found at any time when carrying out the approved development that was not previously identified it must be reported in writing immediately to the Local Planning Authority. An investigation and risk assessment must be undertaken and where remediation is necessary a remediation scheme must be prepared, which is subject to the approval in writing of the Local Planning Authority. Site investigations should follow the guidance in BS10175.

Following completion of measures identified in the approved remediation scheme a verification report must be prepared, which is subject to the approval in writing of the Local Planning Authority.

Reason: To ensure that risks from land contamination to the future users of the land and neighbouring land are minimised, together with those to controlled waters, property and ecological systems, and to ensure that the development can be carried out safely without unacceptable risks to workers, neighbours and other offsite receptors in accordance with the Policy LE29 of the Carlisle District Local Plan 2001-2016.

19. No site clearance or works to hedges shall take place during the bird breeding season from 1st March to 31st August unless the absence of nesting birds has been established through a survey and such survey has been agreed in writing beforehand by the Local Planning Authority.

Reason: To protect nesting birds in accordance with Policy CP2 of the Carlisle District Local Plan 2001-2016.

20. Prior to the occupation of the first property suitable receptacles shall be provided for the collection of waste and recycling for each unit in line with the schemes available in the Carlisle district.

Reason: In accordance with Policy CP14 of the Carlisle District Local Plan 2001-2016.

21. The corridor access to the septic tanks for the properties known as 'Gracelands' and Bushy Bank' shown on drawing no. 11285-01B received on 21st November 2013 shall be enclosed by a fence prior to the commence of development and the land retained as such and not developed or used for any other purpose.

Reason: To ensure that there is reasonable future access to the septic tanks in accordance with Policy CP12 of the Carlisle District Local Plan 2001-2016.

22. No construction work associated with the development hereby approved shall be carried out before 07.30 hours or after 18.00 hours Monday to Friday, before 07.30 hours and 13.00 hours on Saturdays, nor at any times on Sundays or Bank Holidays.

Reason: To prevent disturbance to nearby occupants in accordance with Policy CP6 of the Carlisle District Local Plan 2001-2016.

Relevant Development Plan Policies

Carlisle District Local Plan 2001 - 2016

Spatial Strategy & Development Principles - Policy DP1 - Sustainable Development Locations

All proposals for development will be assessed against their ability to promote sustainable development. Proposals will be considered favourably in the following locations, provided they are in scale with their location and consistent with other Policies of this Local Plan.

Urban Area	City of Carlisle	
Key Service Centres	Brampton Longtown	
Local Service Centres	Burgh by Sands Castle Carrock Cummersdale Cumwhinton Dalston Gilsland Great Corby Great Orton Hallbankgate Hayton	Heads Nook Houghton Irthington Raughton Head Rockcliffe Scotby Smithfield Thurstonfield Warwick Bridge Wetheral

Proposals for development within these locations will be assessed on the basis of the need for development to be in the location specified.

Within the Urban Area proposals for retail, office and leisure developments will be subject to a sequential approach which requires that locations are considered as

follows: firstly within the City Centres; secondly edge-of-centre locations; and thirdly the remainder of the urban area.

Proposals for residential development will be considered against the need to give priority to the reuse of previously developed land, with particular emphasis on vacant and derelict sites and buildings.

Settlement Boundaries have been established on the Proposals Map to recognise the extent of built development or where planning permission already exists to judge proposals for development and are not indicative of land ownership.

Outside these locations development will be assessed against the needs to be in the location specified.

Carlisle District Local Plan 2001 - 2016

Core Development Policies - Policy CP1 - Landscape Character

Proposals for development in the rural area must seek to conserve and enhance the special features and diversity of the different landscape character areas.

Development will be considered appropriate to the character of the landscape provided the proposal has regard to and conserves:

the landform and natural patterns of drainage;

- the pattern of trees and woodland;
- the habitats of species of importance for wildlife;
- the pattern and composition of field boundaries;
- the pattern of historic landscape features;
- the pattern and distribution of settlements

Carlisle District Local Plan 2001 - 2016

Core Development Policies - Policy CP2 - Biodiversity

Proposals in both the rural and urban area should not harm the integrity of the biodiversity resource as judged by key nature conservation principles, and proposals should seek to conserve and enhance the biodiversity value of the areas which they affect.

In areas where species protected under national and European legislation are most likely to occur, special account will be given to their presence in the consideration of development proposals.

Carlisle District Local Plan 2001 - 2016

Core Development Policies - Policy CP3 - Trees And Hedges On Development Sites

Proposals for new development should provide for the protection and integration of existing trees and hedges. Where trees and hedges are present, a survey will be required showing the following:

- 1 the location of existing trees and hedges;
- 2 the species, age, height and crown spread of each tree;
- 3 an assessment of the condition of each tree;
- 4 the location and crown spread of trees on adjacent land which may be affected by the development;
- 5 existing and proposed changes in ground level.

In order to protect and integrate existing trees and hedges within new development,

the City Council will resist proposals which cause unacceptable tree loss, and which do not allow for the successful integration of existing trees identified in the tree survey.

Layouts will be required to provide adequate spacing between existing trees and buildings, taking into account the existing and future size of the trees, and their impact both above and below ground.

The City Council will protect existing trees and woodlands where appropriate, by tree preservation orders, and by the use of planning conditions requiring protective fencing around trees to be retained to prevent site works within their crown spread.

Carlisle District Local Plan 2001 - 2016

Core Development Policies - Policy CP4 - Agricultural Land

Permission will not be given for development where it would lead to the loss of the best and most versatile agricultural land, unless:

- 1 there is an overriding need for the development; and
- 2 there is insufficient land of a lower grade available; or
- 3 available lower grade land has a statutory landscape, wildlife, historic or archaeological designation.

Carlisle District Local Plan 2001 - 2016

Core Development Policies - Policy CP5 - Design

All new development proposals will be assessed against the following design principles. Proposals should:

- 1 Respond to the local context and the form of surrounding buildings in relation to height, scale and massing, and by making use of appropriate materials and detailing;
- 2 Take into consideration any important landscape or topographical features and respect local landscape character;
- 3 Reinforce local architectural features, where appropriate, promoting and respecting local distinctiveness;
- 4 Ensure all components of the proposal, such as buildings, car parking, access routes, open space and landscaping, are well related to one another to ensure a well integrated, successful and attractive development;
- 5 Ensure there is no adverse effect on the residential amenity of existing areas, or adjacent land uses, or result in unacceptable standards for future users and occupiers of the development;
- 6 Ensure the retention and enhancement of existing trees, shrubs, hedges and other wildlife habitats where possible. Where environmental features are lost as a result of the proposal, appropriate mitigation measures should be put in place and on-site replacement of those features will be sought;
- 7 Include landscaping schemes (both hard and soft) to assist the integration of new development into existing areas and ensure that development on the edge of settlements is fully integrated into its surroundings;
- 8 Ensure that the necessary services and infrastructure can be incorporated without causing unacceptable harm to retained features;
- 9 Ensure that the layout and design incorporates adequate space for waste and recycling bin storage and collection.

Carlisle District Local Plan 2001 - 2016

Core Development Policies - Policy CP12 - Foul And Surface Water Sewerage And Sewage Treatment

Development will not be permitted where inadequate foul and surface water sewerage infrastructure and sewage treatment capacity exists, or where such provision can not be made within the time constraint of the planning permission.

Carlisle District Local Plan 2001 - 2016

Core Development Policies - Policy CP17 - Planning Out Crime

The design of all new development must contribute to creating a safe and secure environment, integrating measures for security and crime prevention and minimising the opportunity for crime.

The following points should be applied to all development proposals:

- 1 Security measures should be an integral part of the design
- 2 Developments should be laid out and buildings positioned to maximise natural surveillance with the intention of creating a sense of neighbourhood and deterring criminal and anti-social activity
- 3 Public and private spaces should have clearly defined boundaries.
- 4 Footpaths and cycleways should be designed to maximise their use and prevent opportunities for concealment, unauthorised access or provide a choice of escape routes.
- 5 Landscaping schemes be designed to ensure that they do not create secluded areas, opportunities for climbing or reduce natural surveillance.
- 6 Lighting should deter criminal and antisocial activity whilst minimising light pollution. CCTV may be considered necessary in certain circumstances.

Developers should, at the earliest stage possible, consult Architectural Liaison Officer to advise on measures to be incorporated for designing out crime.

Carlisle District Local Plan 2001 - 2016

Housing - Policy H1 - Location Of New Housing Development

New housing development will be located in sustainable locations in accordance with PPS3: *Housing*, Regional Planning Guidance and the Joint Structure Plan. During the Plan period 80% of new development will be located within the urban area of Carlisle, including allocated sites on the edge of the City referred to in Proposal H16. The remaining 20% will be permitted in the rural area of the District with the focus on the two Key Service Centres of Brampton and Longtown.

In the remainder of the rural area small-scale development will be located in accordance with Policy DP1 and other policies of this Plan to ensure that:

- 1 the site is well related to the landscape of the area and does not intrude into open countryside; and
- 2 the scale of the proposed development is well related to the scale, form and character of the existing settlement; and
- 3 the layout of the site and the design of the buildings is well related to existing property in the village; and
- 4 the siting and design of the buildings is well related to and does not adversely affect the amenity of neighbouring property; and

- 5 appropriate access and parking can be achieved; and
- 6 the proposal will not lead to the loss of amenity open space within or at the edge of the settlement; and
- 7 the proposal will not lead to the loss of the best and most versatile agricultural land.

Settlement boundaries have been drawn for the following Local Service Centres within which proposals will be judged against the above criteria.

Burgh-by-Sands	Castle Carrock	Cummersdale
Cumwhinton	Dalston	Gilsland
Great Corby	Great Orton	Hallbankgate
Hayton	Heads Nook	Houghton
Irthington	Raughton Head	Rockcliffe
Scotby	Smithfield	Thurstonfield
Warwick Bridge (including Little Corby & Corby Hill)	Wetheral	

In the following settlements small-scale infilling (development between an otherwise continuous frontage) will be allowed where this does not conflict with the criteria above and is evidenced by local need to be in that location. S106 agreements may be used to ensure local occupancy to provide for the identified need.

Blackwell	Cardewlees	Cargo
Carleton	Cotehill	Cumwhitton
Durdar	Faugh	Harker
Hethersgill	How Mill	Lanercost
Laversdale	Low Row	Monkhill
Moorhouse	Talkin	Todhills
Walton	Warwick-on-Eden	Wreay

Carlisle District Local Plan 2001 - 2016

Housing - Policy H5 - Affordable Housing

The City Council will negotiate with developers for an element of affordable housing to be included in the majority of housing developments.

All allocated housing sites and windfall sites of 10 or more dwellings in the urban area will be expected to make a contribution of 30% of units on-site towards affordable housing. Only in exceptional circumstances will the Council consider off-site contributions or a financial contribution in lieu of on-site provision.

In the rural area the contribution to affordable housing will be:

- 1 25% of housing on large sites (over 0.8ha or 25 dwellings)
- 2 20% of housing on medium sites (over 0.3ha or 10 dwellings)
- 3 10% of housing on small sites (over 0.1ha or 3 units)

The proportion of affordable housing sought will only be varied if this can be justified on a robust, evidence based, assessment of the economic viability of the site. Where intermediate affordable housing is to be provided at a discounted market value a discount of 25-30% will be sought and the discounted sale will be required to be in perpetuity.

Carlisle District Local Plan 2001 - 2016

Local Environment - Policy LE7 - Buffer Zone On Hadrian's Wall World Heritage Site

Within the buffer zone of Hadrian's Wall Military Zone World Heritage Site, as defined on the Proposals Map, proposals for development which would have an unacceptable impact on the character and/or setting of the World Heritage Site will not be permitted. Development within or adjacent to existing settlements, established farmsteads and other groups of buildings will be permitted, where it is consistent with other policies of this Plan, providing that:

- 1 the proposal reflects the scale and character of the existing group of buildings; and
- 2 there is no unacceptable adverse effect on the character and/or appearance of the Hadrian's Wall Military Zone World Heritage Site.

Within the outer visual envelope, beyond the Hadrian's Wall Military Zone World Heritage Site, proposals for major development which would have an adverse effect on the character of the World Heritage Site will not be permitted unless the need for the development outweighs the environmental costs.

Carlisle District Local Plan 2001 - 2016

Local Environment - Policy LE29 - Land Affected By Contamination

Development on land known or thought to be contaminated will be permitted provided that contaminant sources, pathways and human and environmental receptors are clearly identified in a risk assessment and measures taken to treat, contain and control contamination so as not to:

- 1 Expose the occupiers of a development and neighbouring land uses to unacceptable risk;
- 2 Cause the contamination of adjoining land or allow contamination to continue;
- 3 Lead to the contamination of any watercourse, water body or aquifer;
- 4 Have an unacceptable adverse effect on habitats and ecosystems;
- 5 Cause harm to buildings, animals or crops

The Policy will also apply to proposed development on or within 250 metres of an existing landfill or a site known to be used for landfill within the last 30 years.

Carlisle District Local Plan 2001 - 2016

Transport - Policy T1- Parking Guidelines For Development

The level of car parking provision for development will be determined on the basis of the following factors:

- 1 the Parking Guidelines for Cumbria as updated by additional requirements in PPG 13;
- 2 the availability of public car parking in the vicinity;
- 3 the impact of parking provision on the environment of the surrounding area;
- 4 the likely impact on the surrounding road network; and
- 5 accessibility by and availability of, other forms of transport.
