## 1. Background

1.1 This report contains the Quarter 2 2021/22 performance against the Service Standards and a summary of the Carlisle Plan 2021-23 actions as defined in the Plan. The Panel's Key Performance Indicators (KPIs) are also included as an appended dashboard.

1.2 Service Standards are the measures judged to be the most important to our customers and therefore the mostly likely to influence the overall satisfaction with how the Council performs. The following pages contain the Council's performance against the Service Standards for this Panel.

1.3 The measures are predominately lagging indicators (looking back at performance) and cover a range of services. Some indicators naturally lend themselves to having a specific target, or a national target, whilst with others the aim is to continually improve year-on-year compared to past performance. Regularly monitoring the Council's performance helps to drive continuous improvement and protects against any financial or organisational issues by flagging up indicators that are off target. The measures can also be used for a variety of other purposes including: to evaluate, control, budget, motivate, promote, celebrate and learn. Performance management in this form, through performance reporting, is just one aspect of the Council's wider performance framework.

1.4 The current position of the projects and programmes of the Carlisle Plan are presented in Section 3. Only actions within the remit of the Panel are included in this report. The intention is to give the Panel a brief overview of the current position without duplicating the more detailed reporting that takes place within the Scrutiny agendas and Portfolio Holder reports.

### 1.5 Summary of KPIs and Service Standards:

Service Standards – 0 'red', 0 'amber' and 1 'green'

KPIs – 2 'red', 1 'amber', 5 'green'

### Summary of Exceptions (RED)

Measure	Target	Performance
CSe22 Actual city centre pedestrianised zone revenue as a percentage of city centre expenditure	81%	61% Revenue down on target due to less events in the city centre due to Covid-19 restrictions earlier in the year.
ED11 % of valid full plan applications determined or checked by Building Control within 5 working days	25%	16% The Building Control service has experienced over 50% increase in the number of applications received compared to 2020/21 as the construction industry recovers from Covid-19. This has been

		compounded by a temporary 50% reduction in capacity due to long term absence and officer retirement. The service has trialled outsourcing this work but this has had to be brought back in house to maintain quality and consistency.

## Section 1: Service Standards 2021/22

Service Standards were introduced in 2012 after consultation with Service Managers, DMTs, SMT and JMT. Five further measures were introduced from Quarter 2 2017/18 and all are reviewed during Quarter 3 each year as part of the service planning process. Service Standards are the measures judged to be the most important to our customers, therefore, the most likely to influence the overall satisfaction with how the Council performs.

The following pages contains the Council's performance against the Service Standard within the Panel's remit.

## **Section 2: Key Performance Indicators (KPIs)**

Service Standards are not the only set of measures used to interrogate the performance of the Council. Alongside the review of Service Standards, a set of Key Performance Indicators, derived from the links between the service plans and budget resolution were developed. The measures are predominately lagging indicators (looking back at performance) and cover a range of internal and external facing services. Some indicators naturally lend themselves to having a target or may have a national target set whilst with others, the aim is to improve year-on-year. Regularly monitoring the Council's performance helps to drive continuous improvement and protects against any financial or organisational issues by flagging up indicators that are off target. The KPIs can also be used for a variety of other purposes including: to evaluate, control, budget, motivate, promote, celebrate and learn. Performance management in this form is just one aspect of the Council's wider performance framework.

The KPIs are attached as a dashboard at the end of this report.

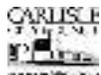

### **Section 3: Draft Carlisle Plan 2021-23 Actions**
