

EXECUTIVE – 16 JANUARY 2012

EXECUTIVE BUDGET PROPOSALS 2012/13 – CONSULTATION RESPONSES

1. I have attempted to download the executive summary but it would not work for me.

My principle in any reply would be that the 16 to 26 generation had nothing to do with causing this crisis but they are unquestionably in the firing line as those in power are more effective at perhaps protecting their own positions.

As a 60 year old pensioner I have been very fortunate i my life: education was good to me, my family was able to afford housing and my pension is not on massive scale but it is reasonable, I have not been sent to war. As a result, I feel that my age group should be prepared to make a sacrifice for the 16-26 age group and of course support for the older pensioners.

I am sorry I can not comment on details but I hope this helps. This consultation is a good idea although the timescale is short.

2. Switch off every other street light and put the rest on motion activation
