### Georgina Philp

Engagement Manager

### Hamza Mulla

Audit In-charge

This paper provides the Audit Committee with a report on progress in delivering our responsibilities as your external auditors.

The paper also includes:

- a summary of emerging national issues and developments that may be relevant to you as a local authority; and
- includes a number of challenge questions in respect of these emerging issues which the Committee may wish to consider (these are a tool to use, if helpful, rather than formal questions requiring responses for audit purposes)

Members of the Audit Committee can find further useful material on our website, where we have a section dedicated to our work in the public sector. Here you can download copies of our publications <https://www.grantthornton.co.uk/en/services/public-sector-services/>

If you would like further information on any items in this briefing, or would like to register with Grant Thornton to receive regular email updates on issues that are of interest to you, please contact either your Engagement Lead or Engagement Manager.

# Progress at September 2022

## Financial Statements Audit

We undertook our initial planning for the 2021/22 audit in July 2022 and began our audit of your draft financial statements in August 2022.

In July we issued a detailed audit plan, setting our proposed approach to the audit of the Authority's 2021/22 financial statements.

The Accounts and Audit Regulations 2015 were amended by SI 2021 No. 263. The Department for Levelling Up, Housing and Communities (DLUHC) previously stated their intention to introduce secondary legislation to extend the deadline for publishing audited local authority accounts to 30 November 2022 for the 2021/22 accounts. This is enacted by The Accounts and Audit (Amendment) Regulations 2022 (SI 2022 No. 708) that comes into force on 22 July 2022. The deadline for publishing audited local authority accounts for 2021/22 is extended to 30 November 2022 and thereafter changed to 30 September for years up to 2027/28.

We will report our work in the Audit Findings Report and aim to give our opinion on the Statement of Accounts by the end of October 2022 to mid November 2022, ahead of the statutory deadline.

## Value for Money

The new Code of Audit Practice (the "Code") came into force on 1 April 2020 for audit years 2020/21 and onwards. The most significant change under the new Code was the introduction of an Auditor's Annual Report, containing a commentary on arrangements to secure value for money and any associated recommendations, if required.

The new approach is more complex, more involved and is planned to make more impact.

Under the 2020 Code of Audit Practice, for relevant authorities other than local NHS bodies auditors are required to issue our Auditor's Annual Report no later than 30 September or, where this is not possible, issue an audit letter setting out the reasons for delay.

As a result of the ongoing pandemic, and the impact it has had on both preparers and auditors of accounts to complete their work as quickly as would normally be expected, the National Audit Office has updated its guidance to auditors to allow us to postpone completion of our work on arrangements to secure value for money and focus our resources firstly on the delivery of our opinions on the financial statements. This is intended to help ensure as many as possible could be issued in line with national timetables and legislation. The extended deadline for the issue of the Auditor's Annual Report is now no more than three months after the date of the opinion on the financial statements. We anticipate issuing our Auditor's Annual Report by 31 December 2022.

# Progress at September 2022 (cont.)

## Audit Fees

During 2017, PSAA awarded contracts for audit for a five year period beginning on 1 April 2018. 2021/22 is the fourth year of that contract. Since that time, there have been a number of developments within the accounting and audit profession. Across all sectors and firms, the Financial Reporting Council (FRC) has set out its expectation of improved financial reporting from organisations and the need for auditors to demonstrate increased scepticism and challenge and to undertake additional and more robust testing.

Our work in the Local Government sector in the period 2018/19 to 2021/22 has highlighted areas where financial reporting, in particular, property, plant and equipment and pensions, needs to improve. There is also an increase in the complexity of Local Government financial transactions and financial reporting. This combined with the FRC requirement that all Local Government audits are at or above the “few improvements needed” (2A) rating means that additional audit work is required.

We have reviewed the impact of these changes on both the cost and timing of audits. We have discussed this with your s151 Officer including any proposed variations to the Scale Fee set by PSAA Limited, and have communicated fully with the Audit Committee.

As a firm, we are absolutely committed to meeting the expectations of the FRC with regard to audit quality and local government financial reporting.

# Audit Deliverables

2021/22 Deliverables	Planned Date	Status
<b>Audit Plan</b> We are required to issue a detailed audit plan to the Audit Committee setting out our proposed approach in order to give an opinion on the Authority's 2021/22 financial statements and to report on the Authority's value for money arrangements in the Auditor's Annual Report	July 2022	Complete
<b>Interim Audit Findings</b> We will report to you the findings from our interim audit and our initial value for money risk assessment within our Progress Report.	September 2022	Complete
<b>Audit Findings Report</b> The Audit Findings Report will be reported to Audit Committee.	October/ November 2022	Not yet due
<b>Auditors Report</b> This includes the opinion on your financial statements.	October/ November 2022	Not yet due
<b>Auditor's Annual Report</b> This report communicates the key outputs of the audit, including our commentary on the Authority's value for money arrangements.	December 2022	Not yet due

# Results of Interim Audit Work

The findings of our interim audit work, and the impact of our findings on the accounts audit approach, are summarised in the table below:

	Work performed	Conclusions and recommendations
<b>Internal audit</b>	We have reviewed internal audit's work on the Authority's key financial systems to date. We have not identified any significant weaknesses impacting on our responsibilities.	Our review of internal audit work has not identified any weaknesses, which impact on our audit approach.
<b>Entity level controls</b>	<p>We have obtained an understanding of the overall control environment relevant to the preparation of the financial statements including:</p> <ul style="list-style-type: none"> <li>• Communication and enforcement of integrity and ethical values</li> <li>• Commitment to competence</li> <li>• Participation by those charged with governance</li> <li>• Management's philosophy and operating style</li> <li>• Organisational structure</li> <li>• Assignment of authority and responsibility</li> <li>• Human resource policies and practices</li> </ul>	Our work has identified no material weaknesses, which are likely to adversely impact on the Authority's financial statements.
<b>Review of information technology controls</b>	<p>We performed a high level review of the general IT control environment, as part of the overall review of the internal controls system.</p> <p>IT (information technology) controls were observed to have been implemented in accordance with our documented understanding.</p>	Our work has identified no material weaknesses, which are likely to adversely impact on the Authority's financial statements.

	Work performed	Conclusions and recommendations
<b>Walkthrough testing</b>	<p>We have completed walkthrough tests of the Authority's controls operating in areas where we consider that there is a significant risk of material misstatement to the financial statements. These systems include property, plant and equipment, pensions and journals.</p> <p>Our work has not identified any issues which we wish to bring to your attention. Internal controls have been implemented by the Authority in accordance with our documented understanding.</p>	Our work has not identified any weaknesses which impact on our audit approach.
<b>Journal entry controls</b>	We have reviewed the Authority's journal entry policies and procedures as part of determining our journal entry testing strategy and have not identified any material weaknesses which are likely to adversely impact on the Authority's control environment or financial statements.	Our work has identified that the Corporate Director of Finance and Resources has access rights to post journals to the general ledger. Our work has confirmed she has not posted any journals during 2021/22. We recommend that this access right to post journals is removed.

# Sector Update

Authorities continue to try to achieve greater efficiency in the delivery of public services, whilst facing the challenges to address rising demand, ongoing budget pressures and social inequality.

Our sector update provides you with an up to date summary of emerging national issues and developments to support you. We cover areas which may have an impact on your organisation, the wider local government sector and the public sector as a whole. Links are provided to the detailed report/briefing to allow you to delve further and find out more.

Our public sector team at Grant Thornton also undertake research on service and technical issues. We will bring you the latest research publications in this update. We also include areas of potential interest to start conversations within the organisation and with audit committee members, as well as any accounting and regulatory updates.

# Response to local audit consultation – Department for Levelling Up, Housing and Communities (“DLUHC”)

The Department for Levelling Up, Housing and Communities (“DLUHC”) has published its response to the local audit consultation. This follows the “Redmond Review”, which reported in September 2020.

The response confirms plans to establish a new regulator, the Audit Reporting and Governance Authority (ARGA), as the system leader for local audit within a new, simplified local audit framework.

Ahead of ARGA’s establishment, a shadow system leader arrangement will start at the Financial Reporting Council (FRC) from September 2022.

The consultation response also announces:

- Plans to make audit committees compulsory for all councils, with each audit committee required to include at least one independent member. This will create greater transparency and consistency across local bodies.
- ARGA will take over statutory responsibility for preparing and issuing the Code of Audit Practice [from the National Audit Office].
- A post-implementation review of the new Value for Money arrangements. The Code is a key part of the local audit system, and it is important to ensure that it helps to facilitate effective local audit. To allow time for the new arrangements to bed in the response proposes this is completed within three years.

The full response can be found here:

[Government response to local audit framework: technical consultation - GOV.UK \(www.gov.uk\)](https://www.gov.uk/government/consultations/government-response-to-local-audit-framework-technical-consultation)

Department for Levelling Up,  
Housing & Communities

# Levelling up White Paper – Department for Levelling Up, Housing and Communities (“DLUHC”)

On 2 February the Department for Levelling Up, Housing and Communities (“DLUHC”) published its Levelling Up White Paper.

The paper states “Levelling up requires a focused, long-term plan of action and a clear framework to identify and act upon the drivers of spatial disparity. Evidence from a range of disciplines tells us these drivers can be encapsulated in six “capitals”:

- Physical capital – infrastructure, machines and housing.
- Human capital – the skills, health and experience of the workforce.
- Intangible capital – innovation, ideas and patents.
- Financial capital – resources supporting the financing of companies.
- Social capital – the strength of communities, relationships and trust.
- Institutional capital – local leadership, capacity and capability.”

The paper also states “This new policy regime is based on five mutually reinforcing pillars.” These are set out and explained as:

- 1) The UK Government is setting clear and ambitious medium-term missions to provide consistency and clarity over levelling up policy objectives.
- 2) Central government decision-making will be fundamentally reoriented to align policies with the levelling up agenda and hardwire spatial considerations across Whitehall.

- 3) The UK Government will empower decision-makers in local areas by providing leaders and businesses with the tools they need.
- 4) The UK Government will transform its approach to data and evaluation to improve local decision-making.
- 5) The UK Government will create a new regime to oversee its levelling up missions, establishing a statutory duty to publish an annual report analysing progress and a new external Levelling Up Advisory Council.

# Grant Thornton – reaction to Levelling up White Paper

On 2 February the Department for Levelling Up, Housing and Communities (“DLUHC”) published its Levelling Up White Paper.

Commenting on the release of the government’s Levelling up White Paper plans, Phil Woolley, Head of Public Sector Consulting, Grant Thornton UK LLP, said:

“The publication of today’s White Paper plans is a welcome first step and it is reassuring to see the government recognise the need for systemic changes in order to deliver its central aim of Levelling up. The ‘12 missions’ can be seen as an attempt to consolidate existing elements of government activity behind a singular banner and now provides a clearer picture of the levelling up opportunity.

“Following a decade of successful regional devolution and mayors, the White Paper marks the next stage of the country’s devolution journey. With government now offering a clear framework of devolved powers and accountability, local leaders will need to embrace the opportunity and collaborate across the public and private sector to ensure they negotiate and then deliver the best deal for their communities. Grant Thornton’s Levelling Up Index shows that the economies of the 10 worst performing local authorities in England are on average over five times smaller than their best performing counterparts - highlighting the scale of the challenge ahead.

“To level up, these areas would need to grow their economies by £12billion, increase employment rates by 6 percentage points, create 1,700 new businesses a year and increase average weekly pay by £200. It is too early to determine whether the measures announced today will be sufficient, but it is a start. Success will ultimately depend on the ability and willingness of local and national government to translate these new frameworks into meaningful change in people’s lives.

“The Spending Review offers the next opportunity for government to show its commitment by realigning departmental objectives behind these new goals.”

# Prudential Code and Treasury Management Code – CIPFA

On 20 December CIPFA published the new Prudential Code for Capital Finance in Local Authorities (Prudential Code) and Treasury Management in the Public Services Code of Practice and Cross-Sectoral Guidance Notes (the Treasury Management Code).

CIPFA commented “These two statutory and professional codes are important regulatory elements of the capital finance framework in which local authorities operate. Local authorities are required by regulation to ‘have regard to’ their provisions. These two codes have been published a principles-based consultation from February to April, which was followed by a second consultation on the detailed changes to the code from September to mid-November.

The updated Prudential Code includes some substantive changes. Most notably, the provisions in Code which present the approach to borrowing in advance of need in order to profit from additional sums borrowed have been strengthened. Additionally, the relevant parts of Code have augmented to be clear that borrowing for debt-for-yield investment is not permissible under the Prudential Code. This recognises that commercial activity is part of regeneration but underlines that such transactions do not include debt-for-yield as the primary purpose of the investment or represent an unnecessary risk to public funds.”

The updated Prudential Code removes the "advance of need" terminology and emphasises the legislative basis for borrowing, namely that a local authority can borrow and invest for any legislative function and/or for the prudent management of their financial affairs.

The examples listed in the Code of legitimate prudential borrowing are:

- Financing capital expenditure primarily related to the delivery of a local authority’s functions;
- Temporary management of cash flow within the context of a balanced budget;
- Securing affordability by removing exposure to future interest rate rises; or
- Refinancing current borrowing, including replacing internal borrowing, to manage risk or reflect changing cash flow circumstances.

# The Value of Internal Audit – CIPFA

One of the key elements of good governance is an independent and objective internal audit service. Some organisations engage fully and reap significant benefits from the assurance, insight and expertise they bring whilst others pay lip-service to them and see their work as an administrative burden.

CIPFA's recent report, Internal Audit: Untapped Potential, lifts the lid on internal audit in public services. For some chief financial officers and chief executives, this report confirms the value and contribution of internal audit teams with 87% of respondents recognising the contribution internal audit makes to their organisation. However, some leadership teams saw internal audit as providing a basic service at minimal cost.

Getting the most out of the function requires honest conversations and long-term planning. Maintaining appropriate skills and knowledge within the function is necessary to ensure high quality internal audit in public services are retained.

## Culture and governance

The Audit Committee should monitor the delivery of internal audit and their output will be a key part of the annual work-plan. However, internal audit is not a substitute for risk management and should enhance the overall assurances received by management. Executives and Officers should engage with internal audit recommendations to ensure the organisation gains maximum value from reviews.

## Capacity

Reducing internal audit days can lead to a lack of 'corporate grip' and not identifying issues at an early stage. This report raises concerns over the capacity of internal audit across the public sector. The profession needs to be valued and invested in to make it more attractive to new blood and for bodies to be able to attract the best candidates to their service.

## Expectations

To maximise the impact of internal audit, a clear and aligned strategic audit plan and annual audit plan should be in place. This should be agreed with all stakeholders.

## Future plans

Internal audit needs to adapt to the changing landscape, including risks such as climate change, digital and technological developments, cyber-security and ongoing financial and service pressures within their planning processes. For financial resilience and medium- and long-term financial strategies internal audit can provide vital independent assurance to decision makers to allow them to take on more risk and be more ambitious. Leadership teams need to be clear on what assurances they will require going forward.

For more information, Rob Whiteman share his views on this report.

# Good practice in annual reporting – NAO

The National Audit Office (NAO) has published this guide which sets out good practice principles for annual reporting with examples from public sector organisations

The NAO comment that the guide sets out “good-practice principles that we believe underpin good annual reporting. These principles are: Supporting Accountability; Transparency; Accessibility; and the need for the report to be Understandable.”

The NAO further comment “The best annual reports we have seen use these principles to tell the “story” of the organisation. It is important that stakeholders, including the public and Parliament, are able to hold an organisation to account. To do this effectively, stakeholders need to properly understand the organisation’s strategy, key risks that might get in the way of delivering this strategy and the effectiveness of their management, and the amount of taxpayers’ money that has been spent to deliver the outcomes the organisation seeks to achieve.”

The guide draws on examples of good practice from within each of the six sections of an Annual Report:

- Strategy
- Risk
- Operations
- Governance
- Measures of success
- Financial performance
- External factors

Although the guide does not include any local authority examples, those included, and the underlying principles, are equally relevant to all public facing organisations.

The guide can be found here:

[Good practice in annual reporting - National Audit Office \(NAO\) Report](#)

# Audit and Risk Assurance Committee effectiveness tool – NAO

The National Audit Office (NAO) has published this tool which supports Audit Committees in assessing their effectiveness.

The NAO comment “Audit and Risk Assurance Committees (ARACs) play a crucial role in supporting the effective governance of central government departments, their agencies and arm’s-length bodies.

ARACs are operating in a highly challenging context. Government organisations are managing many short- and long-term risks and are required to be resilient to a number of pressures. This has created an environment where ARACs need to be dynamic and responsive to the changing risk profiles and demands of their organisations. ARACs can see this as an opportunity to work out how they can most proactively work with the Board and accounting officer.

Against this background, the NAO’s effectiveness tool provides a way for ARACs to assess their effectiveness against more than just the basic requirements. It provides aspects of good practice to give ARACs greater confidence and the opportunity to meet the requirements of their role.

The NAO’s effectiveness tool is a comprehensive way for ARACs to assess their effectiveness on a regular basis.”

The tool covers:

- Membership, independence, objectivity and understanding
- Skills and experience
- Roles and responsibilities
- Scope
- Communication and reporting

Although the tool is designed for central government Audit Committees it is also relevant to local government.

The guide can be found here:  
[Audit and Risk Assurance Committee effectiveness tool - National Audit Office \(NAO\) Report](#)

# Guide for audit and risk committees on financial reporting and management during COVID-19 – NAO

The National Audit Office (NAO) has published this guide which aims to help audit and risk committee members discharge their responsibilities in several different areas, and to examine the impacts on their organisations of the COVID-19 outbreak

The NAO comment “Audit and risk committees are integral to the scrutiny and challenge process. They advise boards and accounting officers on matters of financial accountability, assurance and governance, and can support organisations, providing expert challenge, helping organisations focus on what is important, and how best to manage risk.

Each organisation will have existing risk management processes in place, but risk appetite may have changed as a result of COVID-19, for the organisation to operate effectively and respond in a timely manner. This may result in a weakening of controls in some areas, increasing the likelihood of other risks occurring. Organisations will need to consider how long this change in risk appetite is sustainable for.”

The guide includes sections on:

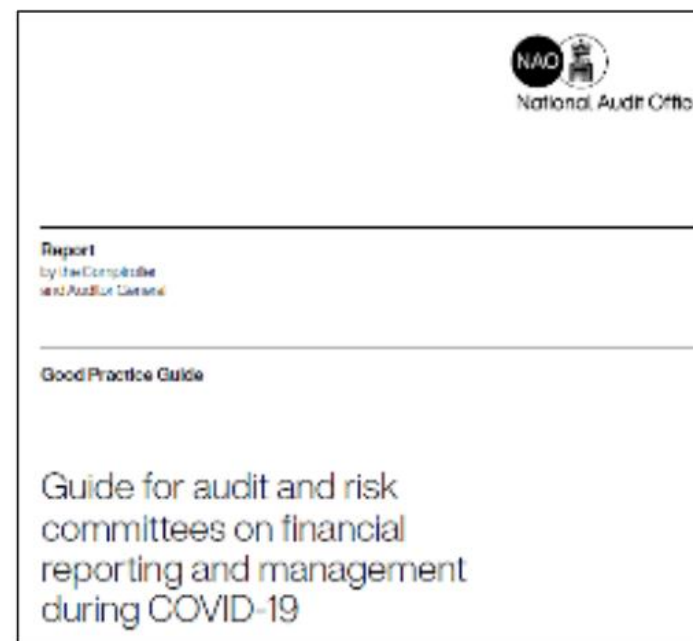

- Annual reports
- Financial reporting
- The control environment
- Regularity of expenditure

The guide can be found here:

<https://www.nao.org.uk/report/guidance-for-audit-and-risk-committees-on-financial-reporting-and-management-during-covid-19/>

The guide includes a number of key questions covering areas such as:

- Property valuations
- Pension scheme valuations
- Completeness of liabilities
- Events after the reporting period
- Control environment
- Fraud and error
