- KEY**
- Proposed Chamber (colour as catchment)
  - Proposed Pipework (colour as catchment)
  - Proposed Chamber No - see hydraulic model (colour as catchment)
  - Cutoff Drainage
  - Catchment A
  - Catchment A (Existing A689 Drainage)
  - Catchment B
  - Flooding Indicated by model
  - Flood Zone 2 (from EA data)
  - Flood Zone 3 (from EA data)

- NOTES**
1. This drawing is part of a set of documents numbered as follows:
    - Drawings CSLR-CAP-HDG-00-DR-D-0501 to 0507 (Inclusive) - Drainage Layout Sheets
    - Drawings CSLR-CAP-HDG-00-DR-D-0510 to 0517 (Inclusive) and 0520 to 0527 (Inclusive) - Pond Plans, Sections and General Arrangements
    - Drawings CSLR-CAP-HDG-00-DR-D-0518 and 0519 - Typical Details
    - Document CSLR-CAP-HDG-00-PP-D-0520 - Drainage Impact Assessment Report
  2. Catchments shown shaded relate to the hydraulic models for the highway drainage.

- Earthworks / Land Drainage**
3. Highway earthworks will be drained via the proposed highway drainage systems or where this is not viable to nearby watercourses.
  4. Existing land drainage and/or runoff which is severed or otherwise affected by the proposed highway construction will be intercepted and diverted to nearby watercourses (or to ground where viable).
- Side Road Drainage**
5. Side roads which drain towards the proposed road will be connected to the proposed drainage system.
  6. Side roads which drain away from the proposed road will be drained using the existing drainage infrastructure with flows attenuated to existing rates.

**KEY**

- Proposed Chamber (colour as catchment)
- Proposed Pipework (colour as catchment)
- Proposed Chamber No - see hydraulic model (colour as catchment)
- Cutoff Drainage
- Catchment C
- Catchment D
- Flooding indicated by model
- Flood risk indicated by model
- Flood Zone 2 (from EA data)
- Flood Zone 3 (from EA data)

- NOTES**
- This drawing is part of a set of documents numbered as follows:
    - Drawings CSLR-CAP-HDG-00-DR-D-0501 to 0507 (inclusive) - Drainage Layout Sheets
    - Drawings CSLR-CAP-HDG-00-DR-D-0510 to 0517 (inclusive) and 0520 to 0527 (inclusive) - Pond Plans, Sections and General Arrangements
    - Drawings CSLR-CAP-HDG-00-DR-D-0518 and 0519 - Typical Details
    - Document CSLR-CAP-HDG-00-RP-D-0520 - Drainage Impact Assessment Report
  - Catchments shown shaded relate to the hydraulic models for the highway drainage.
- Earthworks / Land Drainage**
- Highway earthworks will be drained via the proposed highway drainage systems or where this is not viable to nearby watercourses.
  - Existing land drainage and/or runoff which is severed or otherwise affected by the proposed highway construction will be intercepted and diverted to nearby watercourses (or to ground where viable).
- Side Road Drainage**
- Side roads which drain towards the proposed road will be connected to the proposed drainage system.
  - Side roads which drain away from the proposed road will be drained using the existing drainage infrastructure with flows attenuated to existing rates.
